2	Fixed shaft 3mm probes with protective probe covers
2	2mm converter tips

Description

A set of test leads designed to meet the IEC1010 safety standard, suitable for use upto 1000V. The kit is completely modular in format allowing the user to assemble test lead variations as required. Test lead cable employed is a double insulated 10A silicone rubber, which is extremely flexible and resistant heat and chemical attack.

Maximum Voltage : 1000V
Maximum Current : 10A
