

4mm Insulation Piercing Test Probes CATIII 1000V 10A

Order code: **17-3281** Red
Order code: **17-3265** Black

Typical characteristics:

- Body material: Stainless steel and brass
- Insulation material: PA
- Surface coating: Nickel plated
- Insulating resistance: $\geq 500\text{M}\Omega$
- Rated voltage/current: CATIII 1000V/Max. 10A
- Contact resistance: $\leq 0.005\Omega$

Features:

- High reliability
- High stability
- Economical and practical
