SEM203/TC Push Button Temperature Transmitter

Rapid

The push button temperature transmitter is a cost effective "smart" in head transmitter that accepts thermocouple temperature sensors and converts sensor output over a configured range to a standard industrial (4 to 20) mA transmission signal. A simple push button operation allows the user to select TC type, Burnout direction, Select fixed ranges and trim 4 and 20 mA points.

The in-head transmitter incorporates the latest digital technology to ensure accurate drift free performance. The range the transmitter will be shipped with is default range of 0 to 1000 °C type K.

Model	Input Type	Manufacturer's Part Number	Rapid Order Code
SEM203/TC	Thermocouple	XE-6226-001	**61-3271**
