Acrylic Paint Assorted Colour Pack of 10

Scola acrylic is a highly versatile water-based acrylic paint made using only pure acrylic resin. It is easy to use and free-flowing, with strong colours that dry to a glossy and flexible finish. It retains brush strokes and basic colours can be mixed and blended. Its thick, creamy consistency allows easy use of a palette knife for impasto work.

Scola acrylic paint can be thinned down for water colour techniques, staining and dry brush work. It is suitable for use on paper, card, canvas, ceramic and wood that doesn't contain wax or oil. All colours are intermixable and can be used straight from the bottle or diluted with water. Scola acrylic acts as an adhesive and also makes a good surface for drawing on with graphite and oil pastels.

- Non-toxic, safe for children
- Dries quickly to a glossy finish that remains flexible and is non-yellowing
- Good open time
- Suitable for use on paper, card, canvas, ceramic and wood
- Ideal for mixed media and collage projects.
- All colours are intermixable
- Can be used straight from the bottle or diluted with water
- Supplied as a **pack of 10x 500ml bottles**
- **Scola type ACRS500/10/A**

Set includes the following colours: Mid green, mid yellow, ultramarine blue, scarlet red, magenta, lemon, cyan blue, titanium white, burnt sienna and carbon black.

Type	Order code	1+
Acrylic 10x 500ml	06-0747	25.31

CleanART Acrylic Paint

CleanART is a glossy water-based acrylic paint specifically formulated for the education market. CleanART paints have a creamy consistency, fully inter-mixable and are water resistant. They are specifically formulated to be cleaned from non-porous surfaces such as work tops, floors and art equipment.

Ideal for art, craft and design work and dries to a flexible opaque finish. CleanART acrylic paints have high pigmentation and give vibrant clean colours and excellent light fastness. These acrylics adhere to most surfaces including paper, card, canvas, wood, ceramics, fibre glass and glass.

Supplied in the following colours: black, 2x white, brilliant blue, brilliant red, brilliant yellow, cyan, crimson, lemon and burnt sienna.

- Smooth creamy consistency
- Cleanable formulation
- High quality light fast pigments
- Super-clear packaging with flow control cap
- Wheat and gluten free
- Easy to work with, layers can be built up
- Even when dry can be cleaned from hard surfaces
- Vibrant, fresh colours that stand the test of time
- Vivid colour in the bottle
- Cleaner dispensing
- Suitable for **All Ages**
- Supplied in **10x 500ml bottles**

DALER ROWNEY

System 3 Primer

Daler-Rowney System 3 Primer is a low-cost primer ideal for use in preparation for acrylic and oil painting. Daler-Rowney System 3 Primer can be used as a base for any large-scale work where primer is required such as large paintings, scenery and murals. It is available in 1 litre and 5 litre containers.

- Suitable for use on masonry
- Not suitable for use on exterior wood surfaces

Type	Order code	1+

5 litre	06-8700	34.34

517840

DALER ROWNEY

System 3 Textile Screen Printing Medium

This System 3 textile screen printing medium from Daler Rowney enables you to use your screen printing equipment again and again.

The medium slows down the drying of acrylic colour on the screen and reduces the risk of screen blocking, making it easier to wash out with soap and water. System 3 acrylic colours retain density of colour even after mixing with the medium.

- Medium can be thinned with water
- Substantial covering power on fabric, paper, card and board
- High light fastness
- Good value for money
- Supplied in pots of 5 litres
- Manufacturer's part **128500022**

Artmix Readimix Ready Mixed Paint

Scola Artmix ready-mixed paint is one of the most widely used painting mediums in primary schools. Part of the Scolaquipp Eco range, it uses only natural thickeners and is wheat and gluten-free, so there will be no problems if the paint is accidentally ingested. Scola Artmix is especially formulated to wash off children's skin and most fabrics, making it ideal for young children's painting activities - even the youngest and messiest! Paint should be removed from clothing, etc., while wet if possible and fabrics soaked in cold water. The paint is water-soluble and may be used straight from the bottle, or diluted with water, and dries to a matt finish. Scola Artmix is available in a range of colours, in 600ml, squeezable, re-sealable bottles.

- One of the most widely used paints in primary schools

Readymix Paints

Great value assorted readymix paints, ideal for primary and secondary schools. This paint has a rich, high-saturation colour and a smooth cream consistency making it a pleasure to use. The packaging is super-clear allowing the vibrancy of the colour to shine through, and the flip-top cap is easy for little fingers and helps avoid spillages. This paint can be diluted with water, or mixed with PVA to achieve a thicker and glossier finish, which also means it can be used on non-porous surfaces. This product is supplied from Brian Clegg, UK manufacturers of toys and arts and crafts products for the educational market since 1973.

- Individual colours available in **600ml and 5 litre bottles**
- Also available as an **assorted class pack of 20x 600ml bottles**

66025

Colour Clay (Plasticine) 10kg - 18 colours

This **10kg pack of colour clay (plasticine)** from Scola is an excellent modelling material which provides hours of fun for both kids and professional animators alike.

Not only do the 18 colours provide endless modelling opportunities, but also remains highly cost effective, as it never dries out and can therefore be used time and time again. Despite always being malleable, models will always retain their shape.

The 10kg pack contains 2 x 500g of black and white and 1 x 500g of stone, flesh, yellow, orange, peach, red, purple, violet, dark blue, dark green, light green, turquoise, dark brown, light brown, terracotta and grey.

- Can be used repeatedly - environmentally friendly!
- Ideal for kids, hobbyists or animators
- 18 colours
- Manufacturer's part **10103/20/A**

Type	Order code	1+
Colour clay	06-0895	23.05

Colour Clay Modelling and Animating Clay

Scola Colour Clay modelling clay stays soft and can be reused over and over again. It is a top quality stay-soft animators clay that never dries out and despite always being malleable, models will always retain their shape.

Due to its lower price, Scola Colour Clay is a great alternative to branded Plasticine® #8482; and is ideal and safe for small hands. Colour Clay is available in a 3kg assorted colour pack and a range of individual colours in 500g packs.

- Permanently reworkable
- Does not dry out like water-based clay
- Can be used by children for making models large and small
- Ideal for the budding artist, sculptor and serious modellers

Air Drying Modelling Clay

A fine and even self-hardening modelling clay from DAS.

This air dry clay is one of the many respected products from the range of DAS craft materials. It dries hard to a durable matt finish that can be painted and varnished, and has a multitude of uses both for arts and crafts and around the home.

DAS Air Dry Modelling Clay comes sealed in a foil package to keep it fresh and pliable and is available in terracotta or white.

- No baking required
- Easy to smooth
- Can be used with wood, cardboard and terracotta
- Poster paint and acrylic varnish can be applied for decoration
- Solid and strong when dry
- Drying time 24 hours per centimetre thickness
- PVC free
- Contains no softeners, only vegetable binders
- Available in white or terracotta
- Available in **packs of 500g or 1kg**

May contain silica.

Air Hardening Air Drying Clay - Terracotta & Stone

Scola Air-Hardening Clay has all the qualities of traditional clay except that it doesn't require firing, making it ideal for younger and less experienced modellers.

Drying time will obviously vary according to the thickness and size of the model. Incomplete models can be kept workable under a damp cloth so that modelling can be spread over more than one session.

More advanced potters can also use this versatile and economical clay as it can be fired if required. Finished models can be coated in PVA glue and decorated with acrylic paint.

- A natural product, extracted locally in Staffordshire and Shropshire
- Available in **Stone or Terracotta** colour
- Dries in air
- No need for firing
- Nylon fibre reinforced
- Low shrinkage
- Can be decorated with almost any paint
- Can be coated with PVA or varnish for a glossy finish
- Dried pieces can be reconstituted by covering with a damp cloth overnight
- Wheat- and gluten-free

Colour	Pack size	Order code	1+
Terracotta	2.5kg	06-5439	5.01

600 x 450 (A2)	34-2690	6.47

178164

Model Craft Self-Healing Cutting Mats

These cutting mats from Model Craft have a number of excellent features, including the sandwich structure which ensures no cracking or warping. The non-slip surface of the base holds paper firmly and prevents blade run and cutting error, in the process preserving the life of blades, while encouraging accurate cutting.

- Self-healing 3 layer PVC mat
- Colour: blue with yellow lines
- Available in sizes: **A1, A2, A3, A4 and A5**

Size	Order code	1+

A3	86-3883	7.14
A4	86-3884	4.12
A5	86-3885	3.04

561167

Polymer Blocks

This range of polymer printing blocks are safer and easier to carve than the traditional lino blocks. Unlike linoleum, the polymer blocks do not crumble or distort under printing pressure, and due to their more robust nature allow for the creation of large pieces. Sharp lines can be cut for high definition prints giving clean edges, and texture can be added with a variety of mediums. Available in a variety of sizes, all the printing blocks are approximately 3mm thick.

Lino printing is a simple process and as a result it is widely used in schools; it is a great way to introduce children to the art of printmaking.

- 3mm thick
- Available in a range of sizes
- Supplied in **packs of 10**

Type	Order code	1+
100 x 150mm	06-7976	6.22

This set contains a cutter handle with an adjustable chuck and five assorted steel cutters.

Type	Order code	1+
Lino cutters	06-7970	1.83

80475

Adigraf Engraving Plates

Engraving plates for use with Adigraf engraving tools. Adigraf is a simple system for making printing plates by cutting into a soft rubbery sheet. Adigraf sheets are much easier to cut than traditional lino, etc., and specialised engraving points, mounted in a handle, allow you to almost 'draw' your designs straight on to the plate. Once complete, the plate can be inked with a roller and pressed on to paper, etc., or even walls, as an alternative to stencilling.

- Available in **240 x 150 and 250 x 300mm sizes**

Type	Order code	1+
240 x 150mm	06-5454	2.92
