Clamps & Vices

IRWIN

Quick-Grip Quick-Change One-Handed Trigger Bar Clamps / Spreaders

These Irwin Quick-Grip One-Handed Trigger Bar Clamps / Spreaders have been specially designed for fast, general purpose clamping. The clamps have a lockable swivel jaw that allows uneven surfaces to be clamped and ensures that pressure is evenly distributed.

- Jaws can be easily reversed without a tool to convert from clamp to spreader
- Free-sliding I-beam bar
- Lockable swivel jaw
- Low-recoil release mechanism
- 135kg clamping pressure
- Irwin Quick Grip range

IRWIN

No.3 Mechanic Vice 100mm (4in)

IRWIN® Record® Mechanic's Vice is rigid and robust. The body and sliding jaw are cast from close grained grey iron which is machined on all friction surfaces for a smooth, reliable action. Fitted with hardened steel jaws for extended life, they can be replaced when worn. The main steel screw has a two-start rolled acme thread for faster and smoother operation.

It has a fused steel handle that will bend before the vice can be overstressed. A safety stop prevents the slide from being separated from the body. The most popular and widely used general purpose vice for light to medium-duty applications.

A full line of replacement parts are available.

64400

Aviation Snips

These Irwin aviation snips are specifically suited to cutting curves and irregular shapes from light gauge (16 and up) sheet metal and plastic material. Aviation snips are also ideal for cutting inside circles and inside corners.

This range includes aviation snips to cut straight lines, and others specifically for cutting either straight or wide curves.

- Cold formed blades are 44% stronger, and requires 25% less cutting force
- Serrated lower blade for firmer action, smoother cut, and no double marked edges
- ProTouch moulded soft-grips for superior
- Comfort and control, resulting in less hand fatigue
- Stress increased length of cut for faster work
- Improved balanced weight distribution for greater comfort
- Drop-resistant latch for easy one-handed use
- Saves time and increasing safety
- Available in the following options:
- 101 Left and Straight cut (order code **86-7820**)
- 102, Right and Straight cut (order code **86-7821**)
- 103, Straight and wide curves (order code **86-7822**)

Carpenters Ball and Claw Pincer

This Draper 32732 Carpenters Ball and Claw Pincer has been forged from high quality steel hardened and tempered, with induction hardened jaws.

- Forged from high quality steel
- Hardened and tempered
- Jaws induction hardened
- Ball and claw pattern handles
- Black paint finish
- Display packed
- Draper type **32732 / 121S2**

Type	Order code	1+
Ball and claw pincer	86-3741	3.10

550786

Cable Stripper No. 6

A fully insulated automatic wire stripper for all common stranded and solid conductors of 0.2 to 6.0 mm² (24 to 10 AWG).

- Adjustable length stop of 5 to 12 mm (removable if required)
- Approved to VDE Norm for work on live wires up to 1000 Volts
- Weicon type **No. 6**

Type	Order code	1+	5+
Stripper No. 6	86-0324	23.04	22.36

122653

Automatic Wire Stripper

A heavy duty tool for stripping, cutting and crimping wire and flat and round cable. Automatically strips wires without adjustment.

- Hardened steel blades for long life
- Crimps insulated and non-insulated terminals
- Wire cutter
- Micro adjustment knob for wires smaller than 0.2mm²
- C.K type **495001**

Type	Order code	1+
Auto wire stripper	85-0002	17.41

538410

Kraftform Plus Series 100 VDE Slotted Screwdrivers

Kraftform Plus screwdrivers enable a higher transfer of force with less effort, even in intensive use. The quality of the blades exceeds current standards with regard to hardness and torque strength.

In addition, the safety issue, always a top priority at Wera, is very much in focus for series 100 VDE screwdrivers. Every tool is tested individually for dielectric strength under a load of 10,000 volts so as to ensure safe working with loads up to 1000 volts.

- Insulated blade - individually tested as per **IEC 60900 : 2004**
- Conical tip
- Lasertip
- Multi-component Kraftform handle with non-roll feature

EU145307 Pro Tech 84-Piece Toolkit

A high performance general-purpose toolkit that contains the most commonly required poking, prying, gripping, lifting, ESD safety, and screw-driving tools needed to service many consumer electronic devices.

- **Kit contains:**
- Anti-static wrist strap - protection for circuits against static electricity
- Small suction cup - for holding onto things without handles
- 3x iFixit opening tool - soft plastic prying tools
- 6x iFixit opening pick - thin prying tools for opening electronic devices
- Nylon tipped reverse tweezers - to elevate and hold your work
- Angled ESD tweezers - ESD-safe, with teeth for better grip
- Blunt ESD tweezers - ESD-safe, with teeth for better grip
- 2x plastic spudger - tough antistatic tool for a variety of purposes
- Metal spudger - for more powerful prying, scraping, probing, and poking action
- Jimmy - handy tool for levering open cases
- Magnetic pad - holds tiny screws and parts during repairs
- 64-bit driver kit - all the bits needed for repairs on small electronics
- Tool roll - durable and compact

Saws & Blades

NOBEX

Nobex Proman Mitre Saw

The Nobex Proman is a general purpose mitre saw suitable for use with both wood and metal and enjoying a well-earned reputation for both high **quality and accuracy**. Ideal for use in picture framing, the Swedish-made Proman features a range of pre-set cutting angles and location grooves for cutting compound angles.

- Fast-action work clamp
- Repeat length stop
- Supplied with cord type picture frame clamp
- Blade length 565mm
- Blade width 40mm
- Maximum cutting height 110mm
- Table size 350 x 74mm
- Supplied with 18tpi blade
- Manufacturer's part **PRM-110 A1C**

Measuring

Pocket PRO Magnetic Mini Spirit Level 7cm

This **pocket PRO magnetic mini spirit level 7cm** from Stabila

is a professional mini-format spirit-level ideal for every demanding craftsman. Manufactured to a high standard using robust aluminium-core casing and a rectangular aluminium frame with two precisely milled measurement surfaces - lateral and on the floor.

The versatility of this superb spirit level enables measurements on both flat and round surfaces. The barrel finishing of the aluminium frame (roughened and hardened) provides for a lasting protection of the pocket measurement areas. One strong rare-earth magnet can be found each at the bottom and the lateral measurement areas allowing free hands while aligning the metallic objects.

The vertical measuring area is at an angle of 90° to the horizontal measuring area, enabling vertical measurements with the horizontal level!

- With magnets at the lateral and bottom surfaces
- Precisely milled measurement areas for corner measurements
- V-groove profile for round bodies
- Length: 68mm
- Level accuracy: 1mm/m
- Stable belt-clip included
- Manufacturer's part **17768**

80 AS Spirit Level 2 Vial 19162 30cm

The Stabila 80 AS Spirit Level is fitted with 2 high-quality Stabila vials for optimum readability. They are made from a highly transparent, hard-wearing acrylic glass with precision-ground inner contours and fluorescent vial liquid.

It has a rectangular aluminium profile with reinforcing ribs for high stability and a secure grip. With 2 measuring surfaces for accurate measuring in all positions. The coated measuring surfaces help protect delicate surfaces from damage and plastic end caps protect the profile against impact. Fitted with anti-slip stoppers that prevent the level from slipping. The level is easy to clean thanks to its electrostatic powder-coating.

Stabila installation technology ensures long-term accuracy. They have a measuring accuracy of $\pm 0.5\text{mm/m}$ in a normal position and $\pm 0.75\text{mm/m}$ in reverse position.

Self Levelling Cross Line Laser Level

The DeWalt DW088 self-levelling cross line laser is accurate to $\pm 0.3\text{ mm/m}$ in levelling applications and self-levelling up to 4° surface angle. Features include automatic 'out of level' indication, 2-button operation, low battery indication, built-in magnetic pivot bracket and an overmolded housing.

- Self-levelling cross line laser accurate to $\pm 0.3\text{ mm/m}$
- Self-levelling up to 4° surface angle with automatic 'out of level' indication
- Marks a levelled line in seconds
- 2-button operation
- Low battery indication
- Built in magnetic pivoting bracket mounts easily on metal surfaces
- Overmolded housing and thick glass helps protect the tool and helps maintain calibration under jobsite conditions
- Includes 3x AA batteries for 40+ hours of runtime
- Kit box protects unit and helps maintain calibration when stored
- Supplied complete with 3x AA size alkaline batteries, wall mount bracket and heavy duty carrying case
- **DeWalt Type DW088K**

837031 DISTO™ D2 Laser Distance Meter 100m Bluetooth®

The Leica DISTO™ D2 laser distance meter combines practical functions in a simple and compact design. Specifically designed for indoor applications, it has shortcut keys for addition, subtraction, area and volume calculation which make measuring fast and very reliable. The functionality can be extended with the Leica DISTO™ sketch app. With this app you can transfer measuring results to smart phones or tablets, process and forward them. Prepare layouts and drawings, and dimension them precisely.

In addition the Leica Disto D2 features stake out, last 10 measurement recall and Pythagoras functions which allow indirect measurements of height or width.

As with all Leica laser distance meters, the laser dot is clearly visible, allowing the user to see the targeting point even if the target object is in a hard to access area. The measurement results are clearly displayed on three lines. Thanks to the illuminated display, they are easy to read, even in the dark.

Functions: Distance, Area / Volume Calculation, Addition / Subtraction, Tracking (incl. min/max), Timer, Pythagoras, Memory - last 10 measurement recall.

Specification:

- Accuracy: $\pm 1.5\text{mm}$.
- Range: 0.05-100m.
- Measurement Units: m, ft, in.
- Power: 2 x AAA batteries (supplied).
- Protection Class: IP54 (dust & water splash).
- Dimensions: 120x37x23mm.
- Weight (with batteries): 92g.

336-6R Firm Joint Jenny Caliper 150mm (6in)

The Moore & Wright Firm Joint Jenny Calipers are manufactured from polished tool steel and have a large headed nut and screw assembly that provides a firm and rigid friction joint, with no play. The leg which holds the round adjustable hardened point is offset and model 341 has a locating spur on the straight leg.

The sizes listed are the effective leg length which is measured from the joint assembly.

Note: firm joint caliper capacities are generally 1/3 greater than the effective leg length.

The Moore & Wright 336-6R Firm Joint Jenny Caliper has the following specification:

Size: 150mm (6in).

MakerSpace Trolley

Gratnells

- Robust steel frame and heavy duty lockable castors for reliable service
- Side and back panels with industry standard holes and slots for wide range of accessories
- Tool hangers can be moved and changed to suit a wide range of objects
- Suitable for loads up to 85kg

Order code 14-0481
£415.75

If you run, or are involved with, a MakerSpace, you will quickly appreciate how useful this cart set from Gratnells can be. For those who don't know, a MakerSpace is a location where people gather to co-create, share resources and knowledge, network and work on projects.

The trolley can then be easily customised by using different tray combinations and additional hooks and bins.
