Plywood Sheets Class Pack of 24

This birch plywood selection contains 24 sheets each measuring 300 x 600mm, in two thicknesses, 3mm and 6mm.

- Great for construction and design projects
- Supplied in **packs of 24 sheets**

Type	Order code	1+
Plywood pack of 24	06-0761	80.32

300355

MDF Sheets

300 x 600mm MDF sheets available in two thicknesses.

- Ideal for construction, 3D work and numerous D&T projects
- 3mm thickness supplied in **packs of 36**
- 6mm thickness supplied in **packs of 30**

Type	Order code	1+
3mm (36)	06-0755	62.30
6mm (30)	06-0759	74.44

300356

Assorted Dowel Pack

Class pack of assorted dowel in numerous thicknesses, for all your Design & Technology requirements.

- Length of each dowel 600mm
- 100x 4mm, 20x 5mm, 20x 6mm, 20x 8mm
- 10x 10mm, 5x 12mm, 3x 19mm and 2x 25mm
- Supplied in **packs of 180 pieces**

Type	Order code	1+
Dowel pack	06-0803	35.38

300358

Dowel

Bumper packs of wooden dowelling, ideal for axles, structures and buggy construction.

- High quality Ramin
- 600mm lengths
- Available in a wide range of diameters
- 6mm and below supplied in **packs of 100**
- 8mm and above supplied in **packs of 10**
- All diameter sizes are nominal

Not suitable for professional use.

High Impact Polystyrene Sheet

A range of High Impact Polystyrene (HIPS) sheets in a range of colours and sizes.

- Sheets can be used as conventional flat material, or are sized for economic use in **vacuum forming machines**
- Virgin grade for consistency of moulding
- The 1mm white HIPS offers a cost-effective method for students to prototype their designs prior to manufacture in a thicker material
- It has the added advantage that students can paint the finished moulding
- Supplied in **packs of 10** sheets of a single colour and size

Tolerance $\pm 1.5\text{mm}$. 457 x 254mm sheets are suitable for: Clarke's 725 and 917, SATRO 330 and 329. 457 x 305mm sheets are suitable for: Formec 300X, Clarke's 1210 (2 sheets).

- Dimensions 100 x 200 x 1mm

Type	Order code	1+
Mirror Sheet	51-1762	2.27

523850

Foam PVC

Foam PVC is an excellent rigid material for the construction of student project work. It is a cheaper, lighter, and a more versatile alternative to acrylic and MDF. It is often referred to by the trade names of komacel or foamex. Foam PVC can be drilled and shaped with ease. Its ability to be thermoformed means that students can vacuum-form and line-bend the material to create their designs. Foam PVC can be joined by a variety of methods. It can be glued using solvent or contact adhesives. Double-sided tape makes an excellent alternative to gluing, since it also allows the joint to be separated at a later stage.

- 3mm thickness
- Each pack contains **10 sheets**, approximately 605mm²
- Popular bright primary colours (black, blue, green, yellow and red)
- Easy-to-manage pack size for handling and storage in the workshop

Type	Order code	1+
3mm pack of 10	37-3300	44.42

60271

Polypropylene Corrugated Plastic Sheets 605 x 605 x 4mm

Polypropylene corrugated board is often referred to by the trade names Corriflute or Correx. It is a lightweight, tough material, which is easy to cut using a craft knife.

The material can be joined using a wide variety of techniques, from gluing and stitching, through to fastening with click rivets or Corri-Joiners.

- Sheets have large internal channels, offering good rigidity
- They also allow click rivets to be used for jointing
- Convenient pack sizes allow ease of storage and handling
- Colours: black, blue, green, yellow and red
- Available in **assorted colour packs of 10 or 20 sheets**

Type	Order code	1+
Pack of 10	37-3315	29.86
Pack of 20	37-3325	55.98

60273

Cast Acrylic Clear Sheets

These clear cast acrylic sheets from Perspex® transmit 92% of all visible light – that's better even than glass. Add to this excellent resistance to outdoor weathering, high tensile strength and rigidity, light weight and resistance to impact and it is easy to see why Perspex® Clear sheets are ideal for applications requiring critical visual performance and durability. Available in a range of sizes and thicknesses.

- High gloss, hard surface
- Easy to clean
- Long service life
- Safety glazing material meeting the requirements of ANSI Z.97 and BS 6262
- Easy to thermoform with low-cost tooling

Size	Order code	1+
600 x 400 x 3mm	37-3700	5.74
600 x 400 x 5mm	37-3711	9.37

1000 x 500 x 5mm	37-3732	21.13

Cast Acrylic Transparent Colour Sheets

If you want to add the "wow" factor to your signage or are looking to customise your vehicle, these Perspex® transparent colour sheets will do the job. Available in a range of shades, sizes and thicknesses, Perspex® transparent colour sheets are used in a whole spectrum of applications from automotive and marine glazing to signage and displays, where colour and transparency are key to the design.

- Outstanding optical clarity
- Excellent UV and weather resistance
- Light weight
- Resistant to shocks, abrasions and scratches
- Easy to clean and repair

Cast Acrylic Fluorescent Colour Sheets

These fluorescent cast acrylic sheets from Perspex® will certainly catch the eye and are ideal for use particularly on interior signs, sales displays and other in-store media. These sheets are easy to fabricate and cut to shape and are available in a choice of sizes and thicknesses in a range of striking colours.

Size (mm)	Colour	Order code	1+
600 x 400 x 3	Yellow	37-3767	8.67
600 x 400 x 3	Orange	37-3768	8.88
600 x 400 x 3	Red	37-3769	8.67
600 x 400 x 3	Green	37-3770	8.67
600 x 400 x 3	Nep Blue	37-3771	8.88
1000 x 500 x 3	Yellow	37-3779	21.05
1000 x 500 x 3	Orange	37-3780	21.05
1000 x 500 x 3	Red	37-3781	19.67
1000 x 500 x 3	Green	37-3782	18.72
1000 x 500 x 3	N Blue	37-3783	19.66

1000 x 500 x 5	N Blue	37-3789	13.96

Clear Acrylic Sheets

Clear acrylic sheet, 500 x 500mm, available in 3 or 5mm thicknesses.

- Ideal for construction, 3D sculpture and design
- Supplied in **packs of 5** sheets

Type	Order code	1+
3mm Sheet pack of 5	06-0600	42.20
5mm Sheet pack of 5	06-0602	64.37

Clear PVC Sheets

Clear PVC sheets, great for construction, design and project work.

- 0.14mm sheets are 450 x 635mm
- Supplied in **packs of 10**

Type	Order code	1+
PVC 0.14mm	06-0612	14.66

Extruded Clear Acrylic Tubes

These clear **Esacril extruded acrylic tubes from Perspex®** are available up to 100mm in diameter and with a wall thickness of 2 or 3mm dependent on diameter.

- Available in **500mm lengths (approx.)**

All measurements subject to tolerance of ±0.5mm.

Outside diameter	Inside diameter	Order code	1+
Length 500mm			
10mm	6mm	37-3810	0.876
12mm	8mm	37-3811	0.931
25mm	21mm	37-3814	1.74
40mm	34mm	37-3815	3.75
50mm	44mm	37-3816	5.16
60mm	54mm	37-3817	5.99
70mm	64mm	37-3818	5.76
80mm	74mm	37-3819	7.81

Cast Clear Acrylic Rods

These **Gammacril cast acrylic round rods from Perspex®** are turned from square to produce diameters up to 25mm.

Final polishing ensures that Gammacril round rods have a highly polished and brilliant surface and give the best optical finish available.

- Available in **500mm lengths**

Diameter	Order code	1+
Length 500mm		
6mm	37-3823	1.29
10mm	37-3825	2.33
12mm	37-3826	3.23
15mm	37-3827	4.41
20mm	37-3828	6.36
25mm	37-3829	10.38

Polyamide Rods

Solid polyamide plastic rods in a range of diameters and lengths.

Polyamide can be used for a wide range of applications in all branches of model building as it is extremely easy to work. It is ideal for the production of rollers, sockets, seals, rims, etc.

- Sizes listed are Diameter x Length
- **Sold singly**

Diameter stated is approximate.

20 x 20mm	50-9042	6.68

Plastic Axle Pins

These pins provide an easy method of fitting wheels, gears and cams to 3mm corriflute.

- Simply push into the Corriflute until tight
- The pin head acts as a convenient retaining cap for the wheel
- Length 48mm

Type	Order code	1+
Plastic axle pins	06-0743	5.40

Cams, Gears & Pulleys

Cams Starter Pack

Pack of cams containing 4 cam types, each with 4mm hole.

- 5x small double cam
- 5x double cam
- 5x snail cam
- 5x peg cam
- Supplied in **packs of 20**

Type	Order code	1+
Pack of 20 cams	37-0195	9.60

Polythene Double Gear

A double gear, ideal for gearboxes to increase and reduce motor speed.

- 40 teeth outer
- 12 teeth inner
- Overall diameter 40mm
- Thickness (across both gears) 14mm
- Recommended axle diameter 3mm
- Colour varies

MOQ 4			
Type	Order code	4+	
Double gear	06-8108	0.252	

100-piece Gear Pack

A bumper pack of 100 durable miniature plastic gears.

- 4 assorted colours
- 5 assorted sizes
- 4mm centre hole
- Diameters: 10, 13, 22, 32, 42mm
- Supplied in **packs of 100**

Type	Order code	1+
Primary gear pack	37-0280	9.27

Rapid

Gears

A great range of durable and sturdy plastic gears.

- 4mm centre hole
- Supplied in **packs of 10**

Reducers are available to allow these gears to fit on to a 2mm shaft. Please see order codes **37-0401** and **52-2049**.

Type	Diameter	Order code	1+

Rapid

Bevel Gears, Worm Gears and Gear Rack Packs

A range of bevelled gears, worm gears and racks.

- Bevelled gears: dia. 27mm overall
- Worm gears: dia. 12mm, length 30mm
- Gear racks: length 100mm
- Bevelled gears and worm gears have a 4mm centre hole
- Gear rack sections interlock to make longer racks
- Supplied in **packs of 10**

Type	Order code	1+
Bevel gears	37-0236	4.12
Worm gears	37-0240	5.19
Gear racks	37-0246	3.98

Rapid

18-piece Gear Starter Pack

This gear starter pack contains a variety of gear types and sizes, all with a 4mm centre.

- 2x 60 teeth gears
- 2x 50 teeth gears
- 2x 40 teeth gears
- 2x 30 teeth gears
- 2x 20 teeth gears
- 2x 10 teeth gears
- 2x 30mm long worm gears
- 2x 100mm racks
- 2x bevelled gears
- Supplied in **packs of 18**

Type	Order code	1+
Gear starter pack	37-0230	10.16

Rapid

Reducers 4mm to 2mm

Nylon reducers ideal for use with model motors, axles and wheels.

- Inner diameter 2mm
- Outer diameter 4mm
- Flange diameter 8mm
- Available in **packs of 10 and 25**

Type	Order code	1+
Pack of 10	37-0401	1.21
Pack of 25	52-2049	2.60

Wheel & Accessories

Rapid

Medium Polythene Wheels

39mm diameter polythene wheels ideal for heavier duty modelling applications.

- 3mm interference fit centre hole
- Colours may vary
- For spiked rubber tyres see order codes **06-0654** and **06-0656**
- Supplied in **packs of 50**

Type	Order code	1+
39mm pack of 50	37-2228	16.70

Rapid

Large Polythene Wheels

Large 75mm diameter polythene wheels ideal for heavier duty modelling applications.

- 3mm interference fit centre hole
- Width 10mm
- Colours may vary
- Supplied in **packs of 10**

Type	Order code	1+
75mm pack of 10	37-2230	5.67

Rapid

Plastic Wheels - Packs of 100

Bumper packs of 100 plastic wheels, 25 each of red, green, yellow and blue.

- Strong and durable
- 4mm centre hole
- Available in 40 and 50mm diameters
- Supplied in **packs of 100**

Type	Order code	1+
40mm diameter	06-0664	10.68
50mm diameter	06-0665	11.06

Rapid

Off-centre Mass Wheels

These small plastic mouldings fit directly onto 2mm motor spindles, providing imbalance that is required for vibrating mechanisms.

- Ideal for use in building vibrating 'bugs' and robotics
- Obviate the need to apply any adhesive to ordinary wheels
- Approx. dimensions: 8mm thick x 20mm diameter

Motor not included. Suitable motors are available separately.

Type	Order code	5+
Off-centre mass wheels	06-0698	0.23

Rapid

CD Wheel Adaptors

39mm polythene wheels with a moulded rim.

- Fit straight into the centre hole of a CD
- Enables CDs to be used as wheels or turntables, when used with 3mm axles
- Supplied **singly**

Type	Order code	6+
CD Wheel adaptors	06-0652	0.165

MAJOR
BRUSHES

Cotton Reels

These cotton reels are great for using as wheels or pulleys or just as colourful building blocks.

- Creative resource for your classroom
- Dimensions approx. 32mm long x 31mm diameter
- Centre hole is approx. 8mm diameter
- Supplied in **packs of 100**

Type	Order code	1+
Cotton reels (100)	06-0630	7.23

Rapid

Tyre O Rings

These tyre rings are great for using with either 39mm or 72mm wheels.

- Made from rubber
- Supplied **singly**

Type	Order code	4+
Tyre rings 39mm	06-0694	0.252
Price each		
Tyre rings 72mm	06-0696	0.787

Rapid

Polythene Bushes - Pack of 120

These bushes are ideal for use as axle bearings.

- 4.8mm outside diameter
- 3mm inside diameter
- Supplied in **packs of 120 approx.**

Type	Order code	1+
Pack of 120 bushes	06-6046	3.18

Rapid
Steel and Aluminium Axles

Steel and aluminium rod, ideal for axles for wheels, gears and cams.

- Steel 300 x 3mm dia.
- Aluminium 300 x 3.2mm dia.
- Supplied in packs of 50

Type	Order code	1+
300 x 3mm Steel	06-6032	18.42
300 x 3.2mm Aluminium	06-6034	14.58

Sprockets, Chains & Tracks

Rapid
Ladder Chain

Square link chain, ideal for use with sprockets to make drive trains and transmission systems for robots, buggies and motorised models.

- Link spacing 6mm
- 10mm width
- Supplied in 1m lengths

Type	Order code	1+
Ladder chain	06-0650	9.77

10635

Rapid
Caterpillar Track

Durable soft track with a transverse tread, ideal for robots and rovers.

- Track is approximately 30mm wide and 180mm long

Type	Order code	1+
Caterpillar track	37-2550	1.66

10589

Metal Sheets, Rods, Blocks & Tubes

70919

Rapid
Mole Set

The four specimens in this set will help explain to students the concept of mole.

The Mole Set contains four element specimens: Copper, Iron, Zinc and aluminium. Each sample contains one mole (6.02×10^{23} atoms) of the element.

- Helps to explain the concept of mole
- Each sample contains 1 mole (6.02×10^{23} atoms)
- Set contains specimens of Copper, Iron, Zinc and Aluminium

Type	Order code	1+
Mole set	06-2161	17.18

High Quality Spring Steel Wire Assortment

This assortment of high quality spring solid steel wires is suitable for a wide range of applications in model-building, both at home and in the classroom. All rods are 1000mm long.

Set includes 23 pieces of the following diameter:

1 x 5mm, 1 x 3mm, 1 x 2.5mm, 2 x 2mm, 3 x 1.8mm, 3 x 1.5mm, 3 x 1.2mm, 3 x 1mm, 3 x 0.8mm, 3 x 0.5mm.

Type	Order code	1+
Steel Wire	50-8800	16.44

521163

High Quality Steel Spring Wires 1m Lengths

Reely Spring Steel Wires have been manufactured to a high quality and are ideal for bending and twisting, thus making them effective in many areas of modelling and crafts.

- Low alloy steel
- Zinc phosphate coating
- Dimensional tolerance up to 1.5%
- Supplied as straight 1m lengths

Carbon Fibre

530850

Carbon-Fibre Plates

These fine carbon-fibre sheets are characterised by their 3D effect and glossy appearance. They are constructed with aviation-grade epoxy resin.

The 2mm thickness sheets have a bi-directional structure with fibre layers at 0° and 90°. The 3mm thicknesses have a quasi-isotropic structure with fibre layers at 0°/90°/+/-45°.

- Sheet size 350 x 150mm

Type	Order code	1+
350 x 150 x 3mm	50-5191	54.28

520091

TOOLCRAFT

Carbon Fibre Sheets

This thin and firmly gripped Carbon Fibre laminate has a high tensile strength combined with low weight and high temperature capacity, surpassing most metal and fibre reinforced composites. The laminate is fully elastic, fatigue-resistant and vibration-damping.

- Supplied as 1m x 0.5mm sheets
- Weight: 160gm²
- Weave type: Twill

Type	Order code	1+
160g	50-6379	36.06
160g	50-6379	36.06
160g	50-6379	36.06

520093

Carbon-Fibre Prepreg Plates

These carbon fibre prepreg panels are distinguished primarily by their strength and stiffness. Even temperatures of up to 80 degrees can not degrade these plates.

Manufactured for HT-prepregs (factory pre-impregnated tissues). Weave, twill 2/2 with 0°/90° fibre orientation.

- Sheet size 150 x 340mm

Type	Order code	1+
150 x 340 x 1mm	50-8748	19.79

521157

Carbon-Fibre Film

Carbotec Carbon-Fibre Film in a choice of thicknesses.

- Ideal for decoration
- Satin surface
- Carbon fabric structure
- Flexible
- Can be cut with good scissors
- Temperature resistance 120°C
- Dimensions (LxW): 340 x 150mm

521168

Carbotec Carbon Fibre Rods

A wide range of Carbon Fibre Rods suitable for a range of applications including modelling and prototyping. The rods exhibit amazing dimensional precision and light weight. Telescopic action can be achieved by matching the diameter of the rods with a tube with the corresponding inner diameter.

- High breaking strength
- Light weight
- 100% full carbon
- Drawn
- Smooth Surface
- Fibres aligned in the longitudinal direction
- HT-Carbon fibre
- High dimensional stability

High Impact Polystyrene Sheet

A range of High Impact Polystyrene (HIPS) sheets in a range of colours and sizes.

- Sheets can be used as conventional flat material, or are sized for economic use in **vacuum forming** machines
- Virgin grade for consistency of moulding
- The 1mm white HIPS offers a cost-effective method for students to prototype their designs prior to manufacture in a thicker material
- It has the added advantage that students can paint the finished moulding
- Supplied in **packs of 10** sheets of a single colour and size

Tolerance ±1.5mm. 457 x 254mm sheets are suitable for: Clarke's 725 and 917, SATRO 330 and 329. 457 x 305mm sheets are suitable for: Formec 300X, Clarke's 1210 (2 sheets).

Rapid Foam PVC

Foam PVC is an excellent rigid material for the construction of student project work. It is a cheaper, lighter, and a more versatile alternative to acrylic and MDF. It is often referred to by the trade names of komacel or foamex. Foam PVC can be drilled and shaped with ease. Its ability to be thermoformed means that students can vacuum-form and line-bend the material to create their designs. Foam PVC can be joined by a variety of methods. It can be glued using solvent or contact adhesives. Double-sided tape makes an excellent alternative to gluing, since it also allows the joint to be separated at a later stage.

- 3mm thickness
- Each pack contains **10 sheets**, approximately 605mm²
- Popular bright primary colours (black, blue, green, yellow and red)
- Easy-to-manage pack size for handling and storage in the workshop

Type	Order code	1+
3mm pack of 10	37-3300	42.71

Rapid Plastazote Foam Sheets

Plastazote foam in a range of colours and thicknesses. Ideal for Laser cutting.

- Sheet size approximately 1000 x 660mm
- Red, yellow, blue and green
- Available in 3 and 6mm thickness

Green	6mm	06-8142	9.96

Rapid Assorted Coloured Wonderfoam Sheets

These wonderfoam coloured sheets are ideal for art and craft projects.

- Create your own desired shapes and designs
- Non-toxic and safe to use
- Great for the classroom
- Ideal for a variety of art and craft activities, collages and project work
- Easy to use, easy to cut and shape
- Each sheet is 230 x 300mm
- Approx. thickness 2mm
- Supplied in **packs of 10** assorted colours
- **CE** approved

Type	Order code	1+
Wonderfoam sheets	06-4214	3.99

Rapid PVC and Styrofoam Modelling Foam

Fantastic range of modelling foams, ideal for design and build projects.

- PVC foam sheets are 1220 x 610 x 3mm
- Foam supplied in **packs of 5**
- Styrofoam sheets are available in either 25 or 50mm thickness
- Styrofoam **supplied singly**

Note: colours may vary.

Type	Thickness	Order code	1+

Rapid Polypropylene Corrugated Plastic Sheets 605 x 605 x 4mm

Polypropylene corrugated board is often referred to by the trade names Corriflute or Correx. It is a lightweight, tough material, which is easy to cut using a craft knife.

The material can be joined using a wide variety of techniques, from gluing and stitching, through to fastening with click rivets or Corri-Joiners.

- Sheets have large internal channels, offering good rigidity
- They also allow click rivets to be used for jointing
- Convenient pack sizes allow ease of storage and handling
- Colours: black, blue, green, yellow and red
- Available in **assorted colour packs of 10 or 20 sheets**

Type	Order code	1+
Pack of 10	37-3315	29.86
Pack of 20	37-3325	55.98

Rapid Coloured Polypropylene Sheets

Polypropylene sheets in a range of colours.

Mount & Display Boards

530836

Rapid

5mm Foamboard Display Board

Display board consisting of a thin sheet of dense white foam, coated on both sides with white card. The board is ideal for modelling as well as for making displays, signs, advertising, notices, etc, and can be easily cut to size and shape with a sharp modelling or craft knife.

The board is available plain or with a self-adhesive surface protected by a backing sheet, ready for easy mounting of pictures, coverings, coatings, documents, posters, collages, etc., without the use of glue or spray adhesives.

Pre-scored, folding boards are also available for creating free-standing displays.

For that final touch to your displays, plastic U-channel edging strips are also available to protect or hide damaged or untidy edges. They can also add rigidity to larger boards.

- 5mm thick
- Exceptionally versatile
- Use for model making, sculpture, construction, mounting, displays, etc.
- Available in plain, self-adhesive and folding versions, in a range of sizes

Type	Order code	1+
A2 self-adhesive	06-0283	57.14
A3 self-adhesive	06-0285	23.69

MAJOR BRUSHES

Moreform Modelling Plastic (Polymorph)

Polymorph is one of a new generation of polymers with all the characteristics of a tough, machinable engineering material, yet it fuses and becomes easily mouldable between 30°C and 62°C.

- Can be simply heated with hot water or a domestic hair-dryer
- Mould by hand to create prototypes or solve manufacturing problems currently outside the capacity of other materials

- Applications include: moulding handles and orthopaedic aids, vacuum forming moulds, repairs, modelling, sculpture, stands and mounts, etc.
- Non-hazardous, biodegradable and can be used over and over again
- Supplied in granular form in packs of 0.5 and 1kg
- Supplied complete with application notes
- The material was pioneered for use in schools by the Technology Enhancement Programme (TEP)

Type	Order code	1+
500g	87-0091	9.79
1kg	87-0093	19.40

3444

Rapid

Smart Putty

Smart putty, or otherwise known as visco-elastic polymer or dilatant compound, is ideal for project work in Design & Technology. This material has the remarkable property that it usually behaves as a soft mouldable plastic, similar to chewing gum, but instantly becomes a rubber if impacted.

- Proposed uses in Design & Technology include: demonstration of an unusual polymer; product sample for toy design and packing projects; unusual products that utilise the inherent properties such as very slow flow
- Supplied in **20g** container

Type	Order code	1+
Smart putty	06-0774	3.22

71905

Rapid

Ferrofluid

Ferrofluid can be used in both Science and Design & Technology due to its properties as a magnetic liquid.

- Ferrofluid can stain and is normally required for demonstrations
- Contains alcohol which allows a blob of ferrofluid full movement near a magnet but prevents it sticking to the glass wall
- Ideal for educational investigations and learning about Smart materials
- Supplied in a plastic jar
- A rare earth magnet is also supplied
- Supplied in **10ml container**

Type	Order code	1+
Ferrofluid	06-0778	7.53

71907

Rapid

Polyox

Polyox (polyethylene oxide) is a non-toxic, long-chain polymer with a high molar mass. A solution of Polyox (approximately 1% w/v) behaves as an 'elastic liquid' and will even 'self-siphon'.

- Drag some solution from a beaker and it will continue to move
- Can be drawn up into a syringe even though the tip of the syringe is above the liquid level
- Soluble in water due to extensive hydrogen bonding
- 5g is sufficient to make about 500 cubic cm of fluid
- **Grade: WSR-301**
- Supplied in **packs of 50g**

Please note: Propan-2-ol is required for use with this item but is commonly available at most, if not all schools.

Type	Order code	1+
Polyox	06-8112	6.49

81679

Rapid

Smart Wire

Smart wire is a shape memory alloy (SMA) that changes its length with a useful pulling force when a small current is passed through it.

- Supplied in 1m lengths
- Each 1m length provides enough for 10 useable lengths

Type	Order code	1+
0.006 inch Diameter	06-0768	7.59
0.004 inch Diameter	06-0770	6.47

RVFM

Nichrome Wire

Nickel-chrome wire, commonly referred to as Nichrome or resistance wire.

Ideal for use in applications requiring a heating element and can also be used for ignition in applications such as fireworks and pyrotechnics.

- Alloy is 80% Nickel / 20% Chrome
- Ideal for use with thermocolour sheets, see order code **06-1270**
- Supplied on **reels of 10m**

Type	Order code	1+
Nichrome wire 42 SWG	06-1274	3.00
Nichrome wire 32 SWG	05-0536	4.03

**Muscle Wire with Ring Terminals
150mm - Pack of 5**

Electronic wire which can expand or contract, ideal for smart textiles and model-making projects.

On passing a current through the muscle wire the composition of the wire changes which makes it contract. This movement can be increased by the use of levers etc., to produce moving parts within models.

- Muscle wire (also known as smart wire and nitinol wire) with crimped copper ring terminals
- Fitted copper ring terminals make model making simple
- Wires can easily be soldered on to the copper ring terminals
- Muscle wire can be repeatedly used
- Movement can also be controlled using a 555 timer circuit with a supply voltage of 4.5V, this allows the correct 3V to operate the muscle wire
- Movement can also be controlled using PIC chips to activate and de-activate the muscle wire using the correct 3V supply
- Approximate diameter 0.015mm (0.006in.)
- Available in 150mm lengths
- Supplied in **packs of 5**

Type	Order code	1+
150mm	87-6118	12.84

Rapid

Smart "NITI" Spring

These 5.5mm diameter springs are made from shape memory alloy. At room temperature this spring is soft enough to pull out to approximately 50mm by applying a small amount of force.

- When heated to 70°C by passing an electric current through it (or by other means such as hot water or a heat gun, etc), the spring contracts to its original length with a useful pulling force (equivalent to lifting a 0.5kg weight)
- Length: 20mm (when closed)
- **Supplied singly**

Type	Order code	1+
Smart springs	06-0772	5.40

Rapid

Smart Materials and Product Pack

This pack introduces students to the basics of Smart materials by providing a selection of Smart product samples.

- Pack contains:
- A sample of polymorph low temperature polymer
- A length of Smart wire
- A sheet of thermochromic film (liquid crystal technology)
- A sample of lenticular sheet
- A sample of IQ controller
- A brief guide and suggestions for experiments
- Ideal for demonstration purposes

Type	Order code	1+
Smart product pack	06-0779	14.59

Rapid

Thermocolour Sheet

A self-adhesive 150 x 150mm sheet printed with a thermochromic liquid crystal ink which changes colour when heated above 27°C.

A sample pack is also available, containing a 50 x 150mm thermocolour sheet and a 1m length of resistance wire which can be attached to the back of the sheet and used as a heating element when a small current is passed through it.

- Use as a heat or temperature indicator
- Heat sensitive jewellery
- Advertising displays and signs
- Information pamphlet with sample pack

Type	Order code	1+
Thermocolour sheet	06-1270	5.71
Sample pack	06-1272	4.25

Rapid

Smart Colours Starter Pack

A convenient starter pack of Smart colour pigments which can be mixed with an acrylic base medium.

- Thermochromic pigment appears coloured at room temperature, but at 27°C the colour disappears
- The phosphorescent pigment absorbs and stores sufficient energy to give a long-lasting afterglow
- Pack contains 5x 1ml syringes of each of four colours plus black, a 1g phial of glow-in-the-dark pigment and a 20ml syringe of acrylic medium

Type	Order code	1+

Rapid

Thermochromic Pigment

Thermochromic pigment appears coloured at room temperature, but at 27°C the colour disappears. When cooled, the colour returns.

- Make up as a liquid paste with any acrylic paint
- For best results mix 1 part thermochromic pigment to 4 parts acrylic based paint
- Available in **5ml packs**

Adhesives

300498

Blue Label: Developed for younger children and formulated to wash extremely easily from clothes, brushes, work areas and hair, even once dry.

Red Label: A junior version of the premium Black Label PVA, exhibiting some of its characteristics, but with the advantage of being fully washable when dry.

Black Label: Dries to a very flexible, crystal clear finish. Can be mixed with paints without loss of colour intensity. Ideal for modelling, sticking, glazing and much more.

Glue Spreaders

Plastic glue spreaders.

- Supplied in **packs of 10**

Twin Tip Clear Glue

Snopake general purpose clear paper glue in a handy twin-tip dispenser.

The glue is ideal for sticking paper and card as it is perfectly clear. For best results select the fine tip when precise application of a small amount of glue is required. For larger areas, select the broad tip. The amount of glue dispatched can be controlled by squeezing the barrel.

- General purpose paper glue
- Handy twin-tip dispenser
- Sticks paper and card
- Select the fine tip for small amounts of glue
- Select the broad tip for larger areas
- Washable, safe and non-toxic
- **Contains 28ml**
- Also available as a **classpack of 64** in a shallow Grattells Tray
