

# 10 STEPS TO YOUR MODIFIED HAMMOND ENCLOSURE

## WHY ASK RAPID TO MODIFY YOUR HAMMOND ENCLOSURE?

There are two good reasons - quality and cost

Hammond is a name trusted for enclosure quality for nearly 100 years.

Hammond's cutting edge CAD/CAM and the latest CNC machining centres can offer highly accurate machining of your enclosure holes and cut-outs. Hammond's ultradurable powder paint can be colour matched to your specifications, ensuring a factory quality paint finish every time.

Consider the true costs of modifying enclosures at your premises. When you add up prep time, layout, drilling, tapping, cutting, paint touch up, assembly and the extra product handling, you'll see the value in getting an enclosure that's ready to go.

We can accept most types of documents from hand drawn to professional. No need to spend time & money putting it into specific formats. Ask us! You may be surprised at what you can save in both time & money.

## LONG TERM STOCK AGREEMENT

Hammond enclosure modifications can be ordered through our long term stock agreements:

- Providing a fixed price up-front
- Volume pricing
- Guaranteed availability, we purchase and store all the stock up-front
- Scheduled delivery dates or just call-off when you require it
- We only invoice you when the goods are delivered
- We send a monthly update informing you of remaining stock and agreement end date.
