SERIOUS ABOUT TOOLS

Cobra® Water Pump Pliers

Knipex Cobra® Water Pump Pliers are part of a range of hand tools designed for use on water pipes.

- Adjustment at the touch of a button
- Fine adjustment for optimum adaptation to different sizes of work
- Comfortable handle width
- Self-locking on pipes and nuts
- No slipping and low handforce required
- Gripping surfaces have special hardened teeth
- Box-joint design
- Guard prevents operator fingers being pinched
- Chrome vanadium electric steel, forged, oil-hardened

Order code: Range from only
50-4429 £16.48

Alligator® Water Pump Pliers

Knipex Alligator Water Pump Pliers are self-locking on pipes and nuts, eliminating slippage on the workpiece. The entire force applied can be used to turn the workpiece. With no need to squeeze the plier handles, the effort required is considerably reduced.

- More output and comfort compared to conventional water pump pliers of the same length
- Good access to the workpiece due to slim size in the head and joint area
- Special hardened teeth
- Box-joint design
- Robust construction
- Guard prevents fingers being pinched
- Chrome vanadium electric steel, forged, oil-hardened

Order code: Range from only
50-4451 £14.11

Self-Adjusting Insulation Strippers 0.03-10.0mm

Knipex 12 40 200 Self-Adjusting Insulation Strippers 0.03-10.0mm are small, lightweight, handy pliers in pistol format, with narrow head for wire stripping in tight spaces. Case made from fibreglass reinforced plastic, with soft, ergonomic components in the handle, while the plastic jaws and blade are easy to replace.

- Spare accessories available: blades, clamping jaws and length stop

Order code: Only
50-4597 £48.43

Automatic Insulation Stripper 0.2-6.0mm

Knipex 12 62 180 Automatic Insulation Stripper can fully automatic adjustment to all single, multi-stranded conductors and necessary with standard insulation in the overall capacity of the field, by using V-shaped blade, no manual fine tuning, slender shape of the head is required for using in confined work areas.

Order code: Range from only
50-4600 £21.66

Cable Shears Plastic/Multi Component Handles 165/200mm

A range of cable shears from Knipex, which have been manufactured to a high standard using tool steel in special quality (forged and oil-hardened), allowing smooth and clean cutting, without deforming the cable. Easy to cut, using only one hand.

Order code: Range from only
50-4606 £18.93

CoBolt Compact Bolt Cutters and Concrete Mesh Cutter

The Knipex CoBolt Compact Bolt Cutters have precision cutting edges for soft, hard and piano wire - also able to cut parts such as screws, nails, rivets, etc. to Ø 5.2mm. Additionally induction hardened cutting edges, cutting edge hardness approximately 64 HRC, which is also a feature of the Knipex Concrete Mesh Cutter.

Order code: Range from only
50-6395 **£24.60**

Wrench Pliers

With the Knipex Combined Wrench and Pliers you can dispense with your set of spanners and still get the job done. The smooth jaws grip parallel surfaces with a high degree of pressure and are ideal for a whole range of applications. Use this combination tool for tightening locknuts, snapping cable ties or as a small vice.

- Excellent for gripping, holding, pressing and bending
- Smooth jaws for installation of plated fittings
- Zero backlash jaw pressure prevents damage to edges of sensitive components
- Adjustment at the touch of a button
- Allows quick tightening and release of bolted connections using the ratchet principle
- Chrome vanadium electric steel, forged, oil-hardened

Order code: Range from only
50-7872 **£30.00**

ESD Electronic Super-Knips®

Knipex Electronic Super-Knips® ESD are precision pliers with electrically discharging handles designed for ultra fine cutting work, particularly in computer systems. Available in surgical stainless steel or high-grade special tool steel versions, with or without lead catchers.

- Ground, very sharp cutting edges without bevel for flush cutting
- Precision shaped tips cut wires resting on a board from 0.2mm diameter
- Joint with stainless steel rivet
- Extremely smooth movement
- Opening spring and opening limiter

Order code: Range from only
50-9280 **£15.49**

- 120mm overall length
- Blade angle 15°
- Cutting capacity 1.5mm copper wire
- Bahco types 4130 (semi flush) and 4131 (micro flush)

Flat/Slotted Screwdrivers

- These flat-head screwdrivers are from the Ergo range by Bahco. Exhaustive studies and tests – both practical and in the laboratory – lie behind the handle design of Ergo screwdrivers. This has resulted in a handle that has different diameters for different functions. The large part of the handle allows high torque to be applied, while the small part of the handle can be used with a lighter touch for speedy tightening or loosening of screws. The blade is made of special hardened steel, plated to stop corrosion, and the tip is of Prepoint design – phosphated for maximum dimensional accuracy and no peeling – and meets ISO standard 2380.
- Only rounded contours – no pressure points
 - Soft, high friction handle material with rigid surface for comfortable grip and maximum friction even when the hand is oily
 - Flat face so the screwdriver will not roll
 - Can be hung on a peg, or secured by string
 - Easy to choose the right tip with colour-coded handle and symbol on the end. Colour and symbol will not wear out
 - Large, rounded end lets you apply force without hurting the palm of your hand

BahcoFit Screwdriver Sets

PZ/Torx

This BahcoFit set contains a selection of 7 screwdrivers with Pozidriv and Torx blades.

- Manufacturer's part **B219.007**

SERIOUS ABOUT TOOLS

48W Adjustable Temperature Analogue Soldering Station

Order code
85-5900
From only
£12.49

This no-nonsense, low-cost soldering station is ideally suited to applications where durability, physical size and budget are the main concerns. The included 48W iron is ideal for both traditional and lead-free solders. A range of replacement tips is available to keep your iron in top condition.

The station is also available as a kit that includes a selection of commonly required soldering tools - see below.

- 48W mains powered soldering station with iron
- Adjustable temperature from 150 to 450°C
- Tip cleaning sponge included
- Integral soldering iron holder
- Replaceable tips

The soldering iron may give off non-hazardous fumes for approximately 30 minutes on first use.

Order code
85-5920
From only
£16.49

Soldering Fume Filter

A mains-powered unit for the filtration and removal of soldering and other fumes from the immediate vicinity of the user. When soldering in the workplace or classroom, it is advisable to have some kind of fume extraction or fume filtering system.

- Filters fumes quickly, safely and efficiently
- Adjustable angle
- Supplied with 2 replaceable filters
- Replacement filters available separately
- ESD safe
- 220 to 240V AC mains powered
- Power 23W
- Size 220 x 270 x 168mm (W x H x D)
- Weight 1.4kg

Adjustable Analogue 48W Solder Station Kit

- Solder station above and also includes:
- Helping hand assembly aid with magnifier
- Desoldering pump
- Lead-free solder wire (10g)
- Solder aid kit (brush and scraper)
- Two soldering tips

Order code
85-5914

Soldering Fume Filter

Spare or replacement fume absorbing filters for Anvil Solder Fume Filters, **85-5920, 85-5922** and many other similar units.

- 130 x 130 x 10mm
- Supplied in packs of 2

Order code
85-5924
From only
£2.57

ESD Safe 48W Temperature Controlled Digital Soldering Station

Order code
85-5912
From only
£34.99

A 48W temperature controlled soldering station with push-button temperature selection and a digital display.

The station has been specially designed to prevent the generation of voltage spikes and surges that could damage electro-static susceptible components.

The station uses a 24V soldering iron and has a built-in soldering iron stand with a tip-cleaning sponge mounted in a drawer that can be closed when the station is not in use.

- Temperature range 150 to 450°C
- Last setting memory
- Warning alarm in case of malfunction
- Operating voltage 220 to 240V
- Supplied complete with detachable 48W, 24V soldering iron, soldering tip, tip cleaning sponge and mains cable with UK 13A plug

Replacement Sponge

Bench Mounting Soldering Fume Filter

A mains-powered, bench-mounting unit for the filtration and removal of soldering and other fumes from the immediate vicinity of the user.

When soldering in the workplace or classroom, it is advisable to have some kind of fume extraction or fume filtering system.

- Clamps to bench or table
- Filters fumes quickly, safely and efficiently
- Fully adjustable angle
- Supplied with 2 replaceable filters
- Replacement filters available separately
- ESD safe
- Sound level 42 to 45dB
- 220 to 240V AC mains powered
- Power 23W

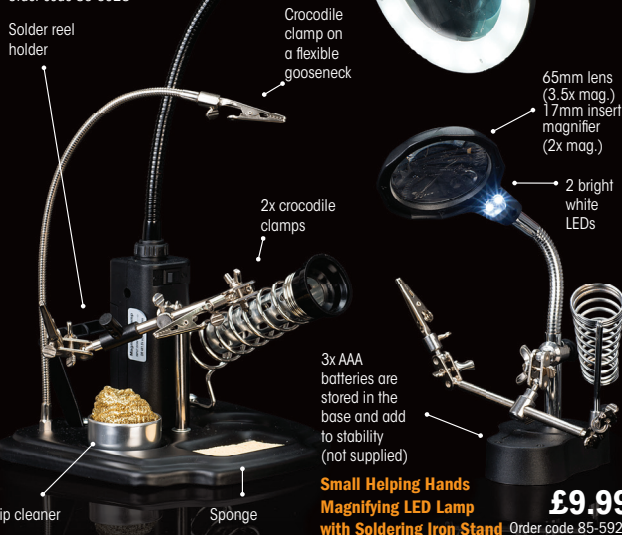

Large 16 LED Magnifying Lamp with Helping Hands

4-piece Professional Quick-Change Ratchet Crimping Tool

Order code **86-4500**
£39.99

A professional quality 4-piece crimping set consisting of a ratchet crimping plier and 3 sets of interchangeable jaws for different types of RJ type networking connectors.

The set is housed in a sturdy blow-moulded case for easy and secure storage.

- Crimps RJ22, RJ11, RJ12 and RJ45 plugs
- Jaws change quickly without tools
- Ratchet mechanism ensures accurate and complete crimping
- Carbon steel crimp plier body
- Plastic handles with rubberised grip areas
- Zinc phosphate finish on jaws
- Case dimensions 280 x 195 x 50mm
- Weight 1.03kg

7-piece Professional Quick-Change Ratchet Crimping Tool

A professional quality 7-piece crimping set consisting of a ratchet crimping plier and 6 sets of interchangeable jaws for different types of crimp connectors.

The set is housed in a sturdy blow-moulded case for easy and secure storage.

- Crimps Insulated Terminals, Non-Insulated Terminals, Open Barrel Terminals, Bootlace Ferrules, D-Sub Terminals, etc.
- Jaws change quickly without tools
- Ratchet mechanism ensures accurate and complete crimping
- Carbon steel crimp plier body
- Plastic handles with rubberised grip areas
- Zinc phosphate finish on jaws
- Case dimensions 280 x 195 x 50mm

LOCTITE®

Instant Universal, Low-Viscosity, Toughened, Gel & Flexible Adhesives

A range of high performance cyanoacrylate adhesives from Loctite.

406: For use with rubber and plastics including EPDM, nitrile and neoprene. It is also recommended for 'difficult to bond' rubbers and plastics, e.g. PE, PP, PTFE and silicone

435: A rubber toughened adhesive with increased flexibility and peel strength along with enhanced resistance to shock

480: The toughest of the 'instant' adhesives, recommended especially for small metal parts due to its superior resistance to peel and stack loads

4850: For bonding materials subjected to bending or distortion, as well as flexible components

401: A general-purpose 'instant' adhesive for ceramics, aluminium,

leather, fabrics, paper, and other materials, including those with acidic and porous surfaces

431: General purpose. For acidic surfaces like chromated and galvanised surfaces. Also for porous substrates like wood, paper, leather, cork and fabrics

454: Super Attak gel. A gel version of 401 with gap-filling capability, and which is not absorbed by porous materials such as wood and cork

460: For use on delicate and electronic assemblies without fear of 'blooming'. Use where appearance is critical and where fumes are undesirable

3090: For applications with gaps up to 5mm or excess of adhesive. Low bloom. Also for porous substrates like wood, paper, leather, cork and fabrics

Screwlock, Nutlock, Studlock, Threadlock and Retainer Adhesives

A range of adhesives which cure in the absence of air to provide a tough retaining medium for threaded and push-fit parts. Parts retained by these adhesives then offer superior vibration resistance and are sealed against leaks and corrosion. A range of strengths are available, allowing parts to be dismantled in the correct order, e.g. nuts from studs, studs from castings, etc.

Screwlock 222: A low strength adhesive which can be used in place of spring and star washers on threaded parts

Nutlock 243: A medium strength oil tolerant adhesive which can replace nylon insert nuts, lock-nuts etc., in general purpose thread-locking

Studlock 270: A high strength adhesive for permanent locking where dismantling is not normally required

Threadlock 290: A high strength adhesive with 'seeking' properties for application after parts have been assembled. Seals porous castings and welds

Threadlocker 241: A medium strength, low viscosity threadlocker designed for the locking and sealing of threaded fasteners which require normal disassembly with standard hand tools

3M

AC11 Activator

AC11 is a solvent-based activator formulated to increase the cure speed of cyanoacrylate adhesives. It can be used to give instant 'on demand' curing, and is especially suited to use with slower, high viscosity adhesives, and with porous substrates where the adhesive must cure before being absorbed into the substrate.

- Can also be used to 'fillet cure' and to cure adhesive outside of the joint
- Available in 20ml brush-in-cap bottles and 200ml aerosols

Type	Order code	1+
AC11 activator 20ml	87-0282	4.82
AC11 activator 200ml	87-0284	10.15

Black superglue 30g	87-0828	12.46

Araldite® professional adhesives

Tubes and Syringe

Araldite Rapid is a quick-setting version of the famous Araldite two-part epoxy resin glue, which bonds ceramics, wood, chipboard, glass, metal and most hard plastics.

- Fast setting and very strong
- Solvent free
- Heat, cold, water and oil resistant
- Supplied with one tube of adhesive and one tube of hardener
- Suitable for bonding almost all materials in common use
- Sets with virtually no shrinkage and joints are resistant to chemical attack
- Provides a seal which is impervious to moisture
- Ideal for electrically insulating and a protection against electrolytic corrosion
- Available in 2x 15ml tubes or 24ml dual syringe

DREMEL®

BIG ON DETAIL

3000 Series Multi Tool +15 Accessories

Buy Dremel Multi-Tool (3000 Series) + 15 Accessories - including the EZ Series Rotary Drill and 15 genuine Dremel accessories, all packed in a convenient bag.

- Variable speed: 10,000 to 33,000rpm
- Replaceable brushes
- 130W motor: for optimal performance

Visit www.rapidonline.com for Details.

4000 Series Multi Tool +45 Accessories

Innovative features like electronic feedback, collet lock out function and a RPM bandwidth of 5,000 to 35,000. Additionally the kit includes the Flexshaft attachment, which is the ideal attachment for detailed work on hard to reach places. Next to the Flex Shaft attachment the kit includes 45 original Dremel accessories including SpeedClic.

Visit www.rapidonline.com for Details.

4000 Series Platinum Kit +128 Accessories +6 Attachments

The Dremel 4000 Platinum Edition is the ultimate Dremel 4000 multitool kit. As well as the top-of-the-line Dremel 4000 with EZ-Twist Nose Cap the kit includes 6 useful attachments and 128 genuine Dremel accessories, all packed in a high-quality aluminium tool case.

Visit www.rapidonline.com for Details.

8000 Series Platinum Kit +65 Accessories +5 Attachments

Top of the line Dremel 8200 10.8V Li-ion powered tool, the kit includes a second battery pack, 5 useful attachments and 65 genuine Dremel accessories all packed in a high quality aluminium tool case.

- 2x 10.8V Battery pack

220 Workstation Drill Stand

The Drill Stand 220 (Workstation) from Dremel provides the ideal tool for stationary working with your Dremel tool, allowing you to drill vertically or at an angle that is adjustable in increments of 15 degrees.

225 Flexible Shaft

The Dremel Flexible Shaft attaches to suitable Dremel Drills to provide precise control for detailed work and to allow access to confined spaces where a smaller drill body is required.

575 Right Angle Attachment

The Dremel Right Angle Attachment allows you to use your Dremel Tool at 90° to the normal direction making it possible to reach areas that you normally can't get at. It can be easily and quickly attached and detached as required.

VersaFlame Gas Blow Torch +7 Accessories

Benchtop burner that safely combines an open flame with a catalyst and soldering head, making it the most versatile stationary burner in the market today, especially for DIY applications. The Dremel VersaFlame is powered by liquid butane gas for quick heat-up and fast recharge.

Professional Toolbags with Metal Handle

These professional quality tool bags have a reinforced metal frame for stability and feature a large number of pockets, each of which have reinforced bottoms to protect against sharp and heavy tools. Long hard plastic feet protect the toolbag and contents against wet surfaces, making these toolbags suitable for a wide range of professional applications.

- Rugged construction
- Ideal for outdoor use
- Tilttable strong metal handle with rubber grip
- Removable, adjustable, ergonomic shoulder strap
