Website features & services

Website: **www.rapidonline.com**

Personalised order codes

Personalised order codes save time when ordering and booking in stock. Your codes will be displayed in: website searches, product pages, shopping baskets, order confirmations and despatch labels.

Requesting a quotation

If you need a product in a quantity higher than our final price break, our quotation service gives you the opportunity to request a lower unit price. Simply use the link on any product page.

Search

If you are looking for a part with a particular rating or attribute, it is easy to filter your search results to find the correct part.

Emailing a basket

It is very easy to email a basket of items to a colleague, and saves time when different people are working on the same order. No need to re-key the items!

Quick order form

The quick order form allows multiple lines of products to be added quickly to your basket. It is a great way of saving time if you are ordering products on a regular basis.

Cut & paste order form

The cut and paste order form allows multiple order codes and quantities from Excel and Word files to be imported straight into your basket, avoiding having to key the lines.

Introduction

Whatever product, service or solution you create, at Rapid we are dedicated to helping you make it. We supply customers with the components, consumables and equipment required to design, manufacture and service high quality products. With over 120,000 products in stock and many more available from the direct relationships we have with major suppliers, we are dedicated to meeting your product demands. In these pages you will find more information about our key brands, product ranges and the many ways we can support you.

James Bates

Managing Director

Challenge our Quotes team today

• Price stability • Rapid response

• Competitive pricing on large quantities • Inventory management

Not in the catalogue? Above our end column? Not a problem! We welcome the chance to beat your current prices by quoting you on volume orders, sourcing items from our suppliers' extended ranges or those not available in our product catalogue. We will hold quotes for 30 days, protecting you against future price rises. Contact our dedicated quotes team today to save money on large quantities. Alternatively using our online quotation service could not be easier.

Kingbright

Kingbright is a world-leading manufacturer of LEDs and optoelectronic components. Rapid has been an official distributor of Kingbright LEDs for more than 30 years, and offer a comprehensive service for customers wishing to buy Kingbright products.

As one of Kingbright's leading UK distributors, Rapid can offer excellent rates on high volume orders. The full Kingbright range available from Rapid include displays, surface mount LEDs, 3mm, 5mm, 8mm and 10mm LEDs, light bars and bargraphs, miniature, rectangular, power LEDs, indicators, optics and mounts, clusters, photodetectors, photocouplers, infrared devices and strips.

RECOM

Recom is an undisputed leader in the field of AC/DC and DC/DC converters. Together with switching regulators and LED drivers its devices are in high demand from the electronics industry, from industrial automation to telecommunications, transportation engineering to medical. Its R-78 switching regulator has become an industry standard, and Rapid is proud to supply Recom's converters for low and medium power applications.

ALPHA

When Taiwan Alpha was founded in 1970 it was Taiwan's first ever potentiometer manufacturer. While the marketspace is now more crowded it is still one of the leading industry suppliers. The Taiwan Alpha product range includes 16mm linear potentiometers, resistors, optical and rotary encoders, switches and sensors, suitable for applications in the lighting industry, medical technology, industrial automation, pro-audio equipment & computer peripherals.

finder

Finder Relays is one of the world's most trusted manufacturers of electronic relays for industrial, automotive and general purpose applications. We stock Finder PCB relays, miniature relays, sub-miniature relays and plug-in power relays in the most popular Finder series, from which customers can filter their requirements and find relays with the correct attributes that meet their specification, such as switching voltage and current, contact arrangement and dielectric strength.

Electrical enclosures are vital to the protection and performance of electrical circuits and devices. Hammond enclosures are available at Rapid in a wide range of sizes, shapes, finishes and materials, including ABS, aluminium, plastic, wood and polycarbonate. We are also able to provide a modification service specifically for customers ordering Hammond enclosures, offering a money and time-saving way to add holes, cut-outs, artwork and other bespoke touches.

Rapid's experience in interconnection means it is the natural home for the extensive CamdenBoss ranges. These include PCB terminal blocks, instrument cases, metal boxes and enclosures, fuses, fuse holders, relay sockets, contact blocks and lead acid batteries. Our FSPT service offers customers the opportunity to order a CamdenBoss enclosure to your exact specification – not only its modifications but its shape, size, colour and texture.

Schneider Electric

Schneider's sustainable, renewable solutions help industry and communities receive the power they need, at whatever level – delivering from power station to production line. Rapid has become a direct Schneider supplier, with a diverse product range that includes electric vehicle charging stations, push button switches, relays, control and signalling components, PLCs and enclosures.

AlphaWire

From audio and video cable to equipment wire, ribbon cable to hook up wire, sleeving and tubing to coaxial cable, Alpha Wire excels in producing wire and cable to perform in demanding conditions. Alpha Wire has a proven reputation for high quality, premium-grade products, such as Xtra-Guard® hazard-matched cable and EcoGen zero halogen cable. We offer access to the entire Alpha Wire catalogue – so even if we do not stock the product or line you need, we can order and despatch it for you.

LOCTITE

Loctite is the trusted choice for engineered, high performance adhesives, sealant and coating solutions. With high strength bonding and curing characteristics, Loctite adhesives can be employed in an incredibly wide range of applications, from threadlocking to gasketing, structural bonding to retaining. Not only do you have a choice of over 300 Loctite adhesives, sealants, cleaners and lubricants at Rapid, you also get expert adhesive advice, a comprehensive quotation service and access to Loctite's extended ranges of equipment, systems and solutions.

FACOM

From screwdrivers and hammers to socket sets and pliers, an extensive range of Facom products is now available from Rapid. As an added service for Rapid customers, in partnership with Facom, we can also source any tool in the Facom product catalogue and offer tailored tool solutions to customers. Why not discover one of Europe's leading tool brands for yourself today?

Wera

Electricians, craftsmen and maintenance professionals appreciate the Wera range of ergonomic and high performance hand tools because they offer accurate, fast and powerful fastening – and an unmistakeable brand identity. We support the Wera brand of screwdrivers, sockets, ratchets and spanners with expert advice and competitive pricing.

Weller®

Combining high soldering performance, ergonomics and safety, Weller is one of the most trusted names in the trade. Weller soldering irons continue to meet high expectations and push the boundaries of soldering technology. Compatible with lead-based and lead-free applications, an extensive range of Weller's world-renowned range of products is available at Rapid. This includes mains-powered, gas-powered, digital and analogue soldering stations and soldering irons, electric screwdrivers, power supplies and parts.

Telegärtner

Cable Assemblies

Rapid Electronics has partnered with Telegärtner UK to offer a fast, simple, cost effective service supplying assemblies. You may be surprised at what you can save by having your cables and connectors supplied ready for your application, rather than ordering the parts separately or from different suppliers.

Not only will you have a choice of Telegärtner connectors but a wide range of other brands, including Binder and Hummel. Your cable will be custom-made. Simply complete the form on our website with your requirements.

www.rapidonline.com/telegartner/assemblies

Common Cable Assemblies

• Flexible Coaxial Cable

• Semi-Rigid & Conformable

• Multiwire Cable

• 2MBIT Cable Assemblies

• Alarm Cable Assemblies

• Overmoulded Cable

• Panel Assemblies

• Wiring Looms and Harnesses

Services

HAMMOND MANUFACTURING™

Ask Rapid to modify your Hammond enclosure

When you need something more than a standard enclosure, Rapid's value services can offer you a fast, simple, cost effective solution. For volume quantities of modified enclosures, here's a few reasons why you might want to try our Hammond enclosure modification service.

• High quality enclosure produced to your exact specification
• Free sample part
• We will do all the CAD drawings, planning & scheduling
• You can order the same modified part time and time again
• 0% scrappage
• 100% ready for your application

Schedules & Call Offs:

• Call off order – we buy the stock in full, release when you need it
• Schedule orders – place one order with multiple deliveries over a forecasted period

Save time and money using this service

Consider the costs of modifying enclosures at your premises. When you add up prep time, layout, drilling, tapping, cutting, paint touch up, assembly and the extra product handling, you'll see the value in getting an enclosure that's ready to go.

Think about how much quicker and simpler it would be only having to place an order with one supplier.

Hammond's cutting edge CADCAM and the latest CNC machining centres can offer highly accurate machining of your enclosure holes and cut-outs. Hammond's ultra-durable powder paint can be colour matched to your specifications, ensuring a factory quality paint finish every time.

Simply complete the enquiry form on our website with details of your enclosure and upload your modification requirements. We will contact you as soon as possible to confirm your order details, price and lead time.

CAMDENBOSS
ELECTRONICS & ENCLOSURES

Bespoke Enclosures
made to your specifications...
without Tooling!

Do you want a unique enclosure?
Rapid, in conjunction with CamdenBoss, can produce one for you.

Do you want to save money by having no upfront tooling cost?
Using Flat Sheet Plastic Technology, FSPT for short, you have high quality plastic enclosures, housings, covers and panels manufactured to your precise specifications without tooling charges.

Do you want to save time by having all of your modifications included?
We also offer additional customisation services including engraving, digital printing, shielding, finishing, assembly and packaging.

Do you want a cost effective solution for small quantities?
FSPT is uniquely suited to low and medium batch quantities (5 to 5000+) and from simple to highly complex enclosure designs.

Do you want to save time with a fast turn round?
We can provide 1-2 weeks prototyping and 3-4 weeks for volume production

Request an FSPT quotation by completing the form on our website.
