Heat-Shrink-Tube Reels 2:1 Item-No.: 24CA261 ... 24CA281

These high-quality shrink sleeves are particularly suitable for service workshops, electronics technicians and applications with a high demand for shrink tubing. The black heat-shrink tube is wound onto a cardboard reel and can therefore be cut to length individually. Various available nominal diameters open up a wide range of applications. The standard version with a shrink ratio of 2:1 without internal adhesive is ideal for most applications.
