General notes

Follow the instructions in this manual to insert the half cylinder in the right way.

Read the usage and maintenance instructions carefully before installing the half cylinder. Keep the manual with you for future use. If the product is passed on to any third party, include the manual with it.

Warnings: No hazards are to be expected, if the device is used correctly and in accordance with the instructions. Small parts and packaging materials can be swallowed by children and lead to choking! Make sure that small parts and packaging materials do not get into the hands of children. Dispose of the packaging material immediately.

Disclaimer

The manufacturer accepts no liability for damage or injury resulting from incorrect handling.

Scope of delivery

Check that the delivery is complete:

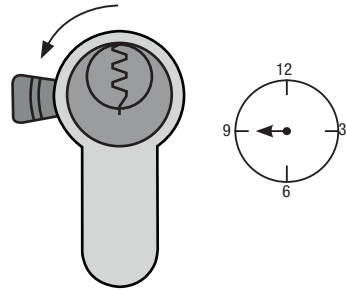

- 1x key cabinet
- 3x cross screws
- 3x wall plugs

Additionally required:

- Profile half cylinder (not included in the scope of delivery) 10/30 mm, with 8-way adjustable cam
- Mounting adhesive
- Hexagon screwdriver 2.5 mm

Setting/Assembly the profile half cylinder

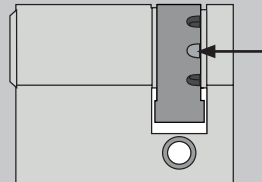

1. Set the cam to 9 o'clock.

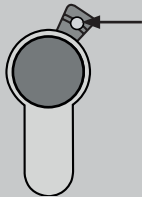

Adjust the cam:

The cam is set differently depending on the profile cylinder. One of the following three methods can be used for the most common models:

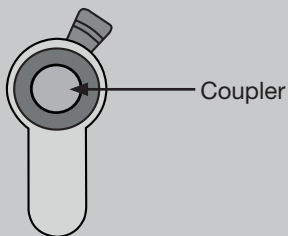

A) Apply pressure to the holes around the cam at the rear edge of the profile cylinder with a sturdy, pointed object so that the cam can be moved to a different position.

B) Press down the spring in the cam with a sturdy, pointed object and realign the cam.

C) Press in the coupler on the back of the profile half cylinder and bring the cam into position.

Assembly Key Cabinet

1. Turn the key until the cam is at 6 o'clock.
2. Insert the profile half cylinder into the open key cabinet.
3. Secure the profile half cylinder with a face plate screw.
4. Hold the key cabinet against the desired wall and mark the drill holes.

Caution: Make sure that no cables or pipes run along the selected drilling point. This can lead to injuries or damage to the surroundings!

5. Drill the holes and insert the wall plugs into the holes.

Note: Please note that the fixing material supplied may not be suitable for the desired installation location. You can obtain suitable fixing material from a specialist retailer.

6. Hold the key cabinet against the drill holes and screw the screws into the wall plugs using a screwdriver. Then screw the key cabinet into place.

Disposal

Help to protect the environment and dispose of the product and the packaging

materials in accordance with the local regulations.
