

Yale

Electronic Guest Safes

Yale Electronic Guest Safes give visitors personal security and peace of mind when staying at your home, hotel or rental property.

Guest access is through an easy to set three to six digit PIN code. You can also set a mastercode, so you have access in case of a forgotten PIN.

These safes feature external batteries, so the staff or guests can easily replace them when they run low with no need to unlock the safe.

Suitable for:

Jewellery

Watches

Passports

Smart Devices

Laptop

- Electronic lock with handle for easy opening
- 3 to 6 digit PIN code access
- Master code option to use in case of forgotten PIN
- Automatic lockdown: 2 Stage time lock activates for 20 seconds if incorrect code is entered 3 times, after a further 3 incorrect codes it then locks down for 5 minutes
- Easy one-touch PIN reset button inside the safe
- Locking mechanism: Anti-bump solenoid (prevents 'bump opening')
- Mechanical override - two radial keys supplied to open the safe in case of a forgotten PIN
- LED light status indicators
- External batteries for an easy replacement
- Silent mode option when entering the PIN code or when the safe is opening

Trusted every day
