

High Security Fingerprint Safes

At Yale, we pride ourselves in protecting the things that matter the most to you. The high security fingerprint safe provides you with security and the convenience of easy opening using your fingerprint and the ability to store up to 100 fingerprints.

Gain access not only through a fingerprint sensor but also a PIN or mechanical key so that you can enjoy the convenience of three different opening credentials.

Combine fast access and enhanced security with a laser cut door for protection against attacks plus lock down for one minute after 3 incorrect attempts to scare away any unwanted visitors.

Whether that's your camera to capture those special moments or a sentimental belonging, we have the right safe to suit you.

You Value it, We Protect it.

Box contains:
