Introducing the fully flexible storage system

The GratStack[®] is a simple concept. Four interlocking pieces make up a simple tray storage system to fit any area. The GratStack[®] can be easily taken to pieces and reassembled into new combinations. The system can be stacked upwards with different tray depths and expanded sideways using unique interlocking connectors.

Made from extra strong car bumper grade Polypropylene, the GratStack[®] is fully able to withstand heavy use in any situation. At last a fully flexible way to tidy up.

Create your perfect storage combination

There are two easy ways to buy the perfect GratStack® unit to solve your storage problems. Either choose a ready made unit from the wide selection on the back cover (see over) or design your own. Simply work out which slice combinations you require and we will do the rest.

The GratStack® is comprised of a top, stackers, bases, rubber non-slip feet and/or castors. There are three different slices - see below. All slices contain a tray, stackers and a base. You can simply stack each slice to create your tray combinations and we just add some rubber feet for you.

Shallow Tray Slice

Contains:
1 Shallow tray
4 Stackers
1 Base

Deep Tray Slice

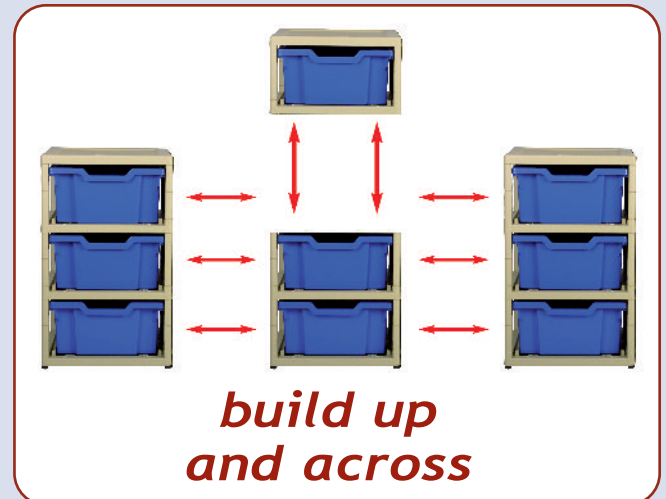

Contains:
1 Deep tray
8 Stackers
1 Base

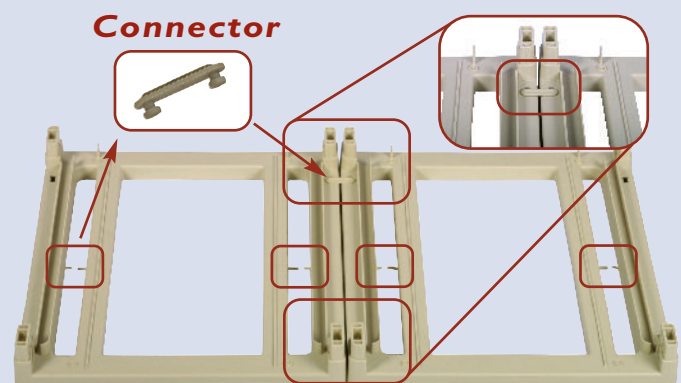

Extra Deep Tray Slice

Contains:
1 Extra Deep tray
12 Stackers
1 Base

To build across creating double and treble units (or more), simply click the connector pieces into place before building up. This will lock your GratStack® units together.

Remember, for the Shallow and Deep Trays you can choose from 21 different tray colours. For the Extra Deep tray you can choose from yellow, dark blue, red, dark green and translucent. You can also order from a choice of castors for storage mobility.

Gratnells tray colours

1 Orange	10 Dark Green	19 Light Grey RAL 7035
2 Yellow	11 Brown 08B23	20 Translucent
3 Tan Brown	12 Dark Brown	21 Black
