B243 - Marten and vermin repellent 12V

This device produces a high ultrasonic sound (approx. 23 kHz). Martens, mice, etc. find this sound extremely annoying and these animals will leave that place (most).

Ideal for installation into cars (as protection against martens), in houses against mice, etc. Please notice the article "Mückenfrei" from the german magazine "Electronic Aktuell Magazin" no.2/2003.

Fitting case: G020 - Case for signals app. 72 x 50 x 28 mm

Fitting accessories:

L001 - Piezo spherical dome tweeter with flare

P5123 - Mini piezoelectric tweeter for M094

Technical Data:

Operating voltage: app. 12 - 16 V/DC

Current consumption: < 0,05 A

Frequency: app. 23 kHz

Loudspeaker: spherical piezoelectric loudspeaker Ø app. 30 mm, 13 mm

Board dimensions: approx. 45 x 29 mm
