

Test Tube with side arm

LabValue - Test Tube with side arm

- » Made from high-quality borosilicate glass for excellent thermal and chemical resistance.
- » Side arm allows easy connection to tubing for gas collection or vacuum applications.
- » Ideal for distillation, gas experiments, and filtration setups.
- » Uniform wall thickness ensures durability and even heating.
- » Available in various sizes to suit different laboratory requirements.

Code	Specs	Pack Size
ECH0720A	125 x 16mm	10
ECH0720B	150 x 18mm	10
ECH0720C	150 x 24mm	10
