

Funnel Holder - Separatory

LabValue - Funnel Holder - Separatory

- » Made of durable polypropylene for chemical resistance and long life
- » Front opening allows easy placement and removal of the separatory funnel
- » Provides a clear view of the funnel's contents during operation
- » Equipped with two tapered wedges to ensure a firm grip on rods of 9.5 mm or 13 mm diameter
- » Lightweight and corrosion-resistant design ideal for laboratory use
- » Suitable for securely holding separatory funnels during liquid separation procedures
