

What's New: the 3Doodler 2.0 vs Create

We hope you're as excited as we are for the newest addition to our family of pens, the 3Doodler Create!

While it might not look too different from the 2.0, the Create is a whole new pen! And just like your mother always told you, it's what's on the inside that counts. That's why we've put together a handy comparison guide for you to get to know the Create better - from the inside out!

3Doodler^{2.0}

3Doodler
Create

The Best 3Doodler to date.

The new 3Doodler Create may not look too different from its predecessor, but rest assured it's jam-packed with changes and improvements - all in the same sleek aluminium shell.

It's quieter, faster, smoother, and more reliable.

So, what's new?

- A Simplified & intuitive controls:** Designed to suit the way you Doodle: click once for continuous flow. Click once to stop. Double click to reverse.
- B 100s of changes to the drive system:** Entirely new internal chassis, drive design, and motor to reduce friction, control the pen's temperature, and improve stability.
- C Redesigned transparent maintenance cover:** See plastic feeding through the pen, and removing the cover is a cinch, with no more fiddly parts.
- D Stronger reinforced pen tip:** Easier to remove and less prone to damage. Change nozzles to your heart's content!
- E New ambient light bar:** Because it looks awesome!

So, what didn't change?

- F Dual speed & dual temperature settings:** The Create is still able to handle our massive range of materials as well as diverse Doodling techniques.
- G Lightweight, ergonomic aluminium shell:** If it feels good, why change it!

100% compatible with all existing plastics & accessories
