

FYBURS

Plant-based
cleaning cloths with
0% microplastics

DESCRIPTION

Large, super absorbent and easy to use. At 32 x 38cm at 110gsm **FYBURS** cleaning cloths are one of the largest plant-based cloths available. Each cloth can absorb up to 10x its own weight in liquid and can be washed and reused time and time again.

Choose between synthetic cleaning cloths that release microplastics into our waterways, or a plant-based cloth that uses 0% microplastics and can degrade at the end of its usable life.

Simply designed to help you clean well, no matter what type of cleaning you do.

Not only are **FYBURS** cleaning cloths a sustainable option they make financial sense too.

Make sure you have a colour-coded cloth for the right area. Available in the 4 popular colours making it easy to swap out your existing cloths for the sustainable choice.
