

What better way to recycle than with a recycled bin?

re:create

re:create recycling bins are the most environmentally-friendly range of bins available...

...but they certainly won't waste your budget.

IDEAL FOR ECO-SCHOOLS

FREE Resources Pack

Now included in all Re:create bin packs

- Packed full of ideas, teaching tips, things to do, posters etc, to promote the recycling theme
- A must for every classroom
- Ideal for Eco-schools

re:create recycling bins tick all the right boxes

- ✓ **TOUGH** All re:create bins are made from strong corrugated board to last longer.
- ✓ **RECYCLED** Manufactured from around 80% recycled materials.
- ✓ **SUSTAINABLE SOURCES** The remaining 20% of materials are from fully sustainable sources.
- ✓ All bins are **100% RECYCLABLE** and **100% BIODEGRADABLE**.
- ✓ **REUSABLE** re:create Bin Liners are strong and reusable as well as see-through. This enables the contents of the bin to be clearly identified as recycled waste and not landfill waste.
- ✓ **LOW CARBON FOOTPRINT** All re:create bins and liners are manufactured in the UK, giving the lowest carbon footprint possible. No overseas imports that have come thousands of miles.
- ✓ **FLAT PACKED** All re:create bins come flat packed for easy self-assembly. This makes less storage and less transport costs which mean less fuel used.
- ✓ **PROMOTES** These brightly coloured bins really encourage recycling from a young age. Some of the bins even inspire the parents to get involved, whilst raising valuable funds for your school!
- ✓ **LOW-COST** Best of all, these bins won't waste your budget. This means you can afford to put them anywhere round the school you need for a really effective recycling programme.

DID YOU KNOW?
Since October 2007, government regulations have stated that all businesses and many other organisations must recycle a significant part of their waste.
