

EAN/GTIN:	4013288039521	Dimension:	64x34x34 mm
Part no.:	05051106001	Weight:	44 g
Article no.:	811/1 ESD	Country of origin:	CZ
		Customs tariff number:	84661038

- ESD bit holder with retaining ring suitable for bits with 1/4" hexagon drive
- ESD-safe tool thanks to surface resistance of $< 10^9 \text{ Ohm}$
- Single-component ESD Kraftform handle
- Extra-short design
- 1/4" hexagon take-up with retaining ring, chrome-plated

Extra-short bit holder. The electrical surface resistance of the Wera ESD material is at $10^6 - 10^9 \text{ Ohm}$. This dependably protects components against electrostatic energy and associated damage. The integrated retaining ring ensures an optimum fit of the tool in the holder. Suitable for bits with 1/4" hexagon head drive as per DIN ISO 1173-C 6.3.

ESD Series

Wera ESD Tools

High protection

The requirements for ESD-safe screwdrivers are specified in the European standard DIN EN 61340-5-1. This standard also includes a handle that has to be out of a defined conductive material. The Wera products in the ESD series satisfy these standards and the even more stringent requirements demanded by some technology companies.

The electric surface resistance of the Wera ESD material is $\leq 10^9$ ohm. This securely protects components against electrostatic energy and associated damage.
