Bit-Checks / Bit-Safes Universal

EAN/GTIN:	4013288099495	Dimension:	200x95x15 mm
Part no.:	05073410001	Weight:	110 g
Article no.:	8600-9/TZ Rapidaptor SB	Country of origin:	CZ
		Customs tariff number:	82079030

- Upright positionable, multi-component Bit-Check
- Rapidaptor holder for rapid bit change
- Torsion design against premature wear
- Tough viscous bits for universal use
- "Take it easy" Tool Finder: colour coding according to profile and size

Robust Bit-Check by Wera. Bit-Checks provide a quick overview of the tools available. Bits not needed are simply reinserted into the set and do not get lost. Simple transportation e.g. in the shirt pocket. Includes universal holder with strong permanent magnet and quick-release chuck for the take-up of bits with 1/4" hexagon head drive as per DIN ISO 1173-C 6.3. Can be inserted in the power screwdriver or for use in the chuck of the electric drill. Includes Torsion bits to combat premature wear. Tough viscous Wera bits for hexagonal head screws and universal use.

05056233001 1 x 1.2x6.5x25

851/1 TZ PH
05056505001 1 x PH 1x25
05056510001 1 x PH 2x25
05056525001 1 x PH 3x25

855/1 TZ PZ
05056810001 1 x PZ 1x25
05056815001 1 x PZ 2x25
05056825001 1 x PZ 3x25

At the workplace

The Bit-Checks can be positioned upright at the workplace so the tool is always quickly to hand.

TZ-Bits

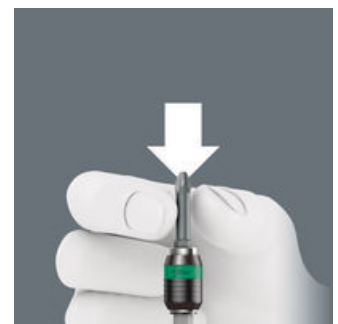

TZ-Bits are tough viscous bits with a torsion zone. Torsion bits absorb the damaging peak torque loads in the torsion zone. This prevents premature wear and enhances the service life of the bits.

Rapidaptor holder

Rapid bit change without needing any additional tools. One-hand operation with a freely spinning sleeve for simplified guidance of the tool. Also available in a BiTorsion design.

Rapid-in and self-lock

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

Rapid-out

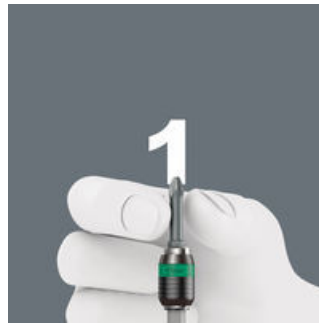

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

Chuck-all

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

Single-hand function

Every function of the Rapidaptor quick-release chuck, such as inserting or releasing bits, can be carried out with one hand. This is faster, more economical and more ergonomic. There are no unnecessary manoeuvres.

Rapid-spin

The free-turning sleeve allows screw steadying at the start of the screwdriving process. This makes it easier to apply the tool to the screw and prevents slipping. It can also be used as a short extension for 1/4" applications e.g. in combination with the Wera Zyklus Ratchets.
