

L-Keys for Hexagon Socket Screws

EAN/GTIN:	4013288104809	Dimension:	229x83x25 mm
Part no.:	05022086001	Weight:	411 g
Article no.:	950/9 Hex-Plus 6	Country of origin:	CZ
		Customs tariff number:	82054000

- L-keys for hexagonal socket screws
- Hex-Plus allows socket head screws to live longer
- BlackLaser for high corrosion protection and long service life
- L-keys are quickly to hand thanks to their size markings
- Wear-resistant clip material for enhanced durability

High quality L-key set for hexagonal socket screws in a practical clip fastener out of wear-resistant material, enabling secure storage of the L-keys as well as simple removal. L-keys with Hex-Plus profile: offers a larger contact surface within the screw head. This reduces the notching effects to a minimum and almost completely eliminates the risk of destroying the screw recess. The ball-end on the long arm allows for reliable working even in difficult installation situations. The BlackLaser surface treatment provides outstanding surface protection, even against corrosion, and a long service life. The tools are quickly to hand thanks to the laser-engraved and thereby wear-resistant size markings on the L-keys.

L-Keys for Hexagon Socket Screws

Content:

950 PKL BM	
05027101001 ¹⁾	1 x 1.5x90
05027102001	1 x 2.0x100
05027103001	1 x 2.5x112
05027104001	1 x 3.0x126
05027105001	1 x 4.0x140
05027106001	1 x 5.0x160
05027107001	1 x 6.0x180
05027108001	1 x 8.0x200
05027109001	1 x 10.0x219

1) Regular hexagon

L-Keys

We questioned the classic L-key design, since all too often the screw head recess is rounded out, meaning screws can no longer be tightened or loosened – and so the user finds the L-key slipping out of the recess. Wera Hex-Plus tools have a larger contact surface in the screw head. The notching effects are reduced and thereby the deformation of the screws. At the same time, as much as 20 % more torque can be applied.

Hex-Plus

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

Ball tip

The spherical drive profile means that it is possible to swivel the axis of the tool to that of the screw, and therefore enable angled, “around-the-corner” screwdriving jobs.

Surface protection

L-keys with BlackLaser surface treatment for outstanding surface protection and long service life. High corrosion protection.

L-Keys for Hexagon Socket Screws

Size identification

The size of each L-keys has been engraved by a laser. In addition SPKL L-keys have a colour coding according to sizes – for simple and rapid accessing of the required tool. Making it easy to find the right tool.

Secure hold and easy removal

The wear-resistant clip material ensures that the L-keys are securely held yet are easy to remove.
