- Solution to the extraneous rust problem: fasten stainless screws with stainless tools
- For recessed TORX® screws
- Torsion design against premature wear
- 1/4" hexagon drive
- "Take it easy" Tool Finder: colour coding according to profile and size

High quality bits out of stainless steel for recessed TORX® screws. Wera stainless are made out of stainless steel which prevents the formation of unsightly extraneous rust. Come with Torsion zone: Torsion bits take-up torque peaks and absorb them in the Torsion zone. This prevents premature wear and extends the service life of the bit. ¼" hexagon, suitable for holders as per DIN ISO 1173-D 6.3.
