

## Kraftform Kompakt 27 RA 1 SB, 7 pieces

### Kraftform Kompakt Vario with Ratchet Function

<b>EAN/GTIN:</b>	4013288156051	<b>Dimension:</b>	230x70x45 mm
<b>Part no.:</b>	05073660001	<b>Weight:</b>	289 g
<b>Article no.:</b>	KK 27 RA 1 SB	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82079030

- Kraftform Kompakt with ratchet function for high working speeds
- Kraftform with anti-roll feature, multi-component, integrated magazine
- Fine-pitched teeth for small return angle; switchover ring (right, fixed, left)
- Maximum torque of up to 50 Newton metres
- Hexagon blade with 1/4" hex socket take-up, stainless sleeve, strong permanent magnet

Wera compact tool with multi-component Kraftform handle for high working speeds and particularly ergonomic screwdriving. Integrated bit magazine in the handle. Includes ratchet: fine-pitched for small return angle, switchover ring (right, fixed, left), maximum torque of up to 50 Nm; hexagonal blade with 1/4" hexagon socket take-up, stainless sleeve, strong permanent magnet.

05072072001 1 x PH 2x25

**855/1 Z PZ**  
05072080001 1 x PZ 1x25  
05072082001 1 x PZ 2x25

**800/1 Z**  
05072059001 1 x 1.0x5.5x25  
05072061001 1 x 1.2x6.5x25

### Kraftform

The basic idea for the prototype of the Kraftform handle – that the hand should dictate the design – has, right through to today, proved to be correct. In cooperation with the internationally recognised Fraunhofer IAO Institute, Wera developed a screwdriver handle designed to match the shape of the human hand as long ago as the 1960s. After a long development phase, the Wera Kraftform handle was launched to the market in 1968. It has been optimised through the years with new technologies, but has kept its proven shape. After all, the human hand has not changed either.

### Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.

### Fine-tooth design

Fine action 44 tooth system for precision work. Great time savings when screwdriving.

### Fine adjustment work

Additionally, the lockable neutral position permits exact adjustment work without having to change the screwdriving direction every time. Lockable neutral position for fine adjustment work.
