EAN/GTIN:	4013288156136	Dimension:	69x65x12 mm
Part no.:	05056473001	Weight:	76 g
Article no.:	Bit-Check 6 Universal 2	Country of origin:	CZ
		Customs tariff number:	82079030

- Upright positionable, multi-component Bit-Check
- The Torsion design absorbs torque peaks
- Tough viscous bits for universal use
- Bit-Check plastic material ensures robustness and durability
- Prevents premature breakage of the drive tip

6 50 mm-long Wera bits tidily arranged in a minimum of space in a practical Bit-Check. The tough viscous bits are suitable for universal use. In the case of the Torsion bits (TZ), torque peaks are additionally absorbed in the Torsion zone. This prevents premature wear and enhances the service life.

At the workplace

The Bit-Checks can be positioned upright at the workplace so the tool is always quickly to hand.

TZ-Bits

TZ-Bits are tough bits with a torsion zone. Torsion bits absorb the damaging peak torque loads in the torsion zone. This prevents premature wear and enhances the service life of the bits.

Bit Ranges

We have had bit ranges in our programme for many years now. In 2016, we put a question mark against everything and came up with a game changer. We wanted bit ranges with bits whose profiles and sizes could be more easily recognised. We wanted bit ranges that were as compact as possible and which were Wera-like at a first glance. We wanted bit ranges with bits that could be removed and reinserted more easily. We wanted bit ranges with as little weight as possible. The new multi-component Bit-Checks satisfy these requirements; the soft material in the lower section of the Bit-Checks ensures that the bits are firmly held yet easy to remove.
