

Kraftform Kompakt 50, 14 pieces

Kraftform Kompakt 50

EAN/GTIN: 4013288093219

Part no.: 05056656001

Article no.: KK 50

Dimension: 180x95x40 mm

Weight: 368 g

Country of origin: CZ

Customs tariff number: 82079030

- Kraftform Kompakt 50
- Kraftform holder with retractable bayonet blade
- Rapidaptor quick-release chuck allows rapid bit change
- Tough viscous bits for universal use
- In a robust storage box

12-piece bit set with holder and Rapidaptor quick-release chuck; multi-component Kraftform handle for low-fatigue working. The telescopic bayonet blade – which can be lowered into the handle – allows fast manual work even in confined installation situations when the blade is retracted. Suitable for manual and power tool operations.

The telescopic blade I

When the unique telescopic blade is lowered into the handle, fast, easy screw-driving action is possible, even in the tightest spots!

The telescopic blade II

By pushing the clamping sleeve, the telescopic blade can be extended out of the handle and the compact tool becomes a full-sized screwdriver.

The telescopic blade III

If the clamping sleeve is pushed again the telescopic blade can be taken out of the handle, and be used as a machine bit adaptor.

Chuck-all

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

Rapid-in and self-lock

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

Rapid-out

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

Handle/interchangeable blade system

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.
