

Round Neon indicator Light, Snap-in Panel Mount

DESCRIPTION

These round neon indicator lights are versatile and reliable components designed for a wide range of household and industrial applications. They are designed to operate efficiently across a temperature range of up to 120°C. These indicator lights feature a 14mm diameter and 5mm profile lens, with 6.3 x 0.8mm tab terminals. This indicator light provides clear visibility and dependable performance, making it an ideal choice for enhancing the functionality and safety of various electrical devices.

DISTINCTIVE FEATURES

- Neon Indicator light
- 12mm cut out
- 14mm diameter
- 6.3x0.8mm tab terminals
- Voltage Rating: 250V AC
- Panel mounting
- 5mm thick lens

APPLICATIONS

These neon indicator lights are suitable for a wide range of applications including industrial equipment and control panels. They ensure clear visibility and dependable performance, making them an ideal choice for enhancing the functionality and safety of various electrical devices.
