Standard configuration

The BVS240XDPDR & BVS480XDPDR DIN-Rail Power Modules must both be equipped with at least one XB005XPDR to function as a full-fledged DIN-Rail 24V DC Uninterruptible Power Supply.

Extend runtime

By connecting two, three or max four XB005XPDR external battery packs to the associated BVS DIN-Rail Power Module instead of one, you can easily increase the number of minutes that the DIN-Rail emergency power supply can independently supply backup power.
