## PRODUCT SPECIFICATIONS

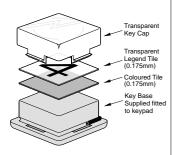

### **GRAPHIC SERIES**

**Keytop Assembly Instructions** 

Graphic Series keypads are supplied with the key bases fitted. Each key position can be customised without dismantling the keypad. Keytop options can be selected from a library of standard symbols, characters or background colours. Alternatively, customised keytop graphics can be created using laser printed acetate film or screen printed polymer film. The total thickness of the coloured tile and legend tile should not exceed 0.4mm. (Please note, paper is not recommended as the printed graphics may degrade if exposed to moisture / condensation.)

- 1 Orientate the keypad correctly by checking the connector position on the underside of the keypad.
- 2 Load each key position in turn. First locate the legend tile into the transparent key cap, then locate the coloured tile (see diagram). Before snapping the transparent key cap, including legend and customer tile, into position ensure that the legend tile's position, orientation and alignment are correct.

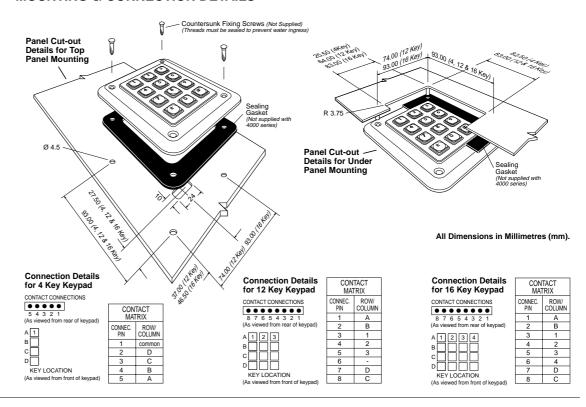

Please note, if it is necessary to remove the transparent key cap a suitable tool or pliers should be used. Once removed the key cap should not be re-used; spare key caps and bases are available in sets of 4, part number GS0000.

Whilst every effort is made to ensure details are correct at time of production, specifications are subject to change without notice.

STORM IS A TRADEMARK OF KEYMAT TECHNOLOGY LTD.

## **MOUNTING & CONNECTION DETAILS**

#### ACCESSORIES FOR USE WITH STORM K RANGE KEYPADS

ACCESSORIES FOR USE WITH STORM A RANGE RETFADS					
Item		Stock No.	Notes		
Universal Encoder		400000	Keypad Interface. PC/RS232		
Rear Casing	Providing space for additional components or circuitry (12 key formats only)	RC1202	Supplied complete with fixing hardware, sealing gaskets and fixing instructions		
Blank Keytops (Storm 1000 Series) set of four		1K0000	Supplied without keytop graphics. Suitable for engraving		
Blank Keytops (Storm 2000 Series) set of four		2K0000	Supplied without keytop graphics. Suitable for engraving or printing		
Privacy Shroud Provides PIN / Entry Code security		1KFS02	Supplied complete with fixing hardware, sealing gaskets and fixing instructions		
Graphic Keytop Accessories  Enables custom configuration of keytop graphics and colour		GS	Refer to your appointed distributor for detai
