PRODUCT DATA SHEET

Product	White Primer
Type	Oil based white wood primer
Intended Use	Applied directly to bare wood. Seals surface and provides adhesion for subsequent coats of paint.
Special Features	Suitable for interior and exterior use.
Preparation	Wooden surfaces to be primed must be dry, clean, smooth and free from dust, oil, grease, wax and other contaminants likely to affect adhesion. All knots should be sealed with Rustin's Knotting before priming.
Application	STIR THOROUGHLY BEFORE USE. The first coat may be thinned with 10% white spirit if necessary. After priming, holes and cracks may be filled with Rustin's Wood Filler .
Coats	1 or 2 coats depending on requirements.
Drying Time	The primer is touch dry within 2-4 hours depending on temperature and humidity.
Re-coating Time	Allow to dry for 12 hours or overnight before applying undercoat.
Application Temp.	Ideally 15-25°C. Do not use below 10°C, or in conditions of high humidity.
Coverage	3.75 sq metres per tin per coat depending on the absorbency of the surface.
Maintenance	Must be over coated with an undercoat.
Compatibility	All types of paint.
Settlement	STIR WELL BEFORE USE.
Shelf-life/Storage	A very long time if stored in a cool dry place firmly sealed.
Hazards	Flammable. Keep out of reach of children. Keep away from sources of ignition- no smoking. Avoid contact with skin and eyes. Use only in well ventilated areas. A full Safety Data Sheet is available upon request or on www.rustins.co.uk
Clean-Up	Use White Spirit or Rustin's Brush Cleaner whilst still wet. If dried on, clean equipment and brushes with Rustin's Brush Restorer .
Sizes	250ml 500ml 1 L
