Wera 2go 4 Tool Quiver

Wera 2go 4 Tool Quiver

Dimensionally stable Wera 2go Tool Quiver  
 High resistance against cuts and stabs  
 Variable hook and loop fastener partition for a division into as many as 5 inner sections  
 Large set-down area; handle for carrying and hanging up

At the workplace and when out and about

The large set-down area improves the stability of the Tool Quiver. Its large handle means that the quiver can be easily transported or simply hung up at the workplace.

Clever organisation

The variably adjustable hook and loop fastener partition in the Tool Quiver ensures neat and tidy arrangement of the tools.

Robust and dimensionally stable

The robust and dimensionally stable material is very resistant against cuts and stabs. The tools carried are protected against damage and moisture. This enhances the service life of the tool box.

Perfect system supplement

Thanks to its hook and loop fastener zone, the Tool Quiver can be docked with the Wera 2go 1 tool carrier and with the Wera 2go 2 tool container.
