- Insulated screwdriver for safe working up to 1,000 volts
- Individually tested
- Multi-component Kraftform handle for fast and low-fatigue working
- Handle markings simplify finding and sorting of tools
- The Wera Black Point tip offers an exact fit and optimum corrosion protection

Premium Kraftform VDE screwdriver. Multi-component Kraftform handle for fast and gentle work. The Wera Black Point tip and a sophisticated hardening process guarantee a long usability for the tip, increased corrosion protection and exact fitting accuracy. Individually tested at 10,000 V for safe working at the approved voltage of 1,000 V. The hexagon anti-roll protection avoids bits from rolling away annoyingly at the workplace. Handles marked for easy identification and sorting of tools.

## Individually tested

The individual testing at 10,000 volts, in accordance with IEC 60900, ensures safe working with loads up to 1,000 volts.

## Ergonomic Kraftform handle

The multi-component Kraftform handle for quick and low-fatigue working.
## Non-roll feature

The hexagonal non-roll feature prevents any rolling away at the workplace.

## Identification marking

The screw symbol and tip size identification markings on the handle make it easier to find the right screwdriver in the tool case, or at the workplace.

## Wera Black Point tip

The Wera Black Point tip and a refined hardening process ensure long service life of the tip, improved corrosion protection and an exact fit.
