Roller cabinet

Exclusive roller cabinet in the Tool Rebel design

Robust design for hard work in the workshop

The double-walled design and the completely welded construction make the Tool Rebel roller cabinet extremely robust. The optimized yielding edge protection on all four corners ensures reliable impact protection thanks to an internal cushioning action.

Storage and work surface with lots of advantages

large storage and work The surface is made of solventresistant plastic and, being also completely sealed, the inside of the trolley is protected from leaking liquids. Slots for accessories such as laptop holders and add-on modules are integrated into the work surface.

Heavy-duty gear

Highly manoeuvrable

The ergonomically designed handlebar ensures that the roller cabinet is highly manoeuvrable. Durable handle thanks to the black powder-coated metal design.

Secure locking, smooth running

two swivel castors The are equipped with a double stop: The locked castor reliably prevents it from rolling away, the locked spindle carrier prevents the turning castors from unintentionally, e.g. on sloped surfaces. The oil- and acidresistant elastic wheels ensure smooth running. A protective ring prevents the ingress of dirt and threads.

Sophisticated drawer design

The drawers are equipped with ball bearing telescopic slides and can be pulled out completely. Selfclosing and mutually locking to prevent unintentional opening, thus minimal risk of tilting for roller cabinets. The carefully considered drawer design allows optimal use of the interior space. The dirtresistant drawer coating makes cleaning easy.

Detailed locking concept for more security

The ergonomically arranged lateral position of the lock improves usability and protects the key and lock from damage. The extremely robust locking system protects the tools stored in the roller cabinet against unauthorized access. The central locking is completed by a cylinder lock. Two folding keys are included.

The Tool Rebel roller cabinet has large wheels, each with a load of 250 kg, with precision ball bearings and double ball rims in the spindle carrier. The workshop trolley is easy to move, even under high dynamic loads.
