Locking Tools

The Professionals Choice Since 1924

The Original™, ProTouch™ and Fast Release™.

The VISE-GRIP® Locking Tool was invented in 1924 by a blacksmith in the small town of DeWitt, Nebraska. Eight decades and more than a half-billion tools later, IRWIN® VISE-GRIP continues to be handcrafted in the U.S.A with the same quality and dependability that trade professionals have trusted and preferred since the beginning.

Our expertise in design and manufacturing produces locking tools with more than **twice the life** and **significantly more strength** than other tools on the market. And to further meet the needs of professional tool users, IRWIN VISE-GRIP is now available in three handle configurations:

A Perfect Grip for Any Job
