CHAIN WAX

PRODUCT FEATURES:

This product provides lasting lubrication and protection for your chain and is O, X, Z ring compatible. With exceptional corrosion protection and added PTFE, it's particularly suitable for wet conditions and provides outstanding anti-fling properties. Regular use helps maintain performance and life of your chain.

PRODUCT BENEFITS:

- Contains Extreme Pressure and Anti Wear additives for improved load resistance.
- Anti-corrosive additives for superior metal protection.
- Highly water resistant, providing excellent corrosion protection.
- Long lasting.
- Penetrates and thickens.
- Anti-fling formula.
- Precision spray application minimises wastage.
- Compatible with O, X and Z ring chains.

TYPICAL APPLICATIONS:

Primarily designed for use on high speed motorcycle chains, but can be used on all moving metal parts to improve lubrication and help prevent malfunction and seizure.

DIRECTIONS FOR USE:

Before use, clean chain first with WD-40 Specialist® Motorbike Chain Cleaner to remove dirt, oil and grime. Shake can well and apply to the full length of the inside of the chain, allowing the product to run vertically down into the chain parts then leave to dry.

CHAIN WAX:

A white, viscous grease
Not applicable
app. 0.81 @ 20°C
Thin free flowing liquid. Extremely volatile
Extremely flammable, flash point below -20°C
A solution of calcium based grease, viscosity modifiers, anti-wear and extreme pressure additives and PTFE in an aliphatic hydrocarbon solvent and butane/iso-butane/propane propellant.
Designed for use at ambient temperatures only.

PACKAGING SPECS:

400ML AEROSOL
