

## 20 Rubber Case Fans Mounts

Siliconized Rubber Pins for mounting case fans  
Eliminates fans vibration

Product Code: AK-MX003

The rubber mounts isolate the case fan from the PC chassis thereby stopping vibration and resonance transmission. Structure born noise is prevented by the rubber cushions helping to provide a quiet PC system. Eliminating vibration additionally helps to reduce the stress on system components. Universal siliconized rubber pins enable quick and tool free mounting of all popular size case fans.

- **Anti-vibration siliconized rubber pins**
- **Quick and tool free case fans mounting**
- **20 pcs for easy installation of five fans**
