1. SAFETY

- ☐ **WARNING!** Ensure Health & Safety, local authority, and general workshop practice regulations are adhered to when using this equipment.
- ✓ Familiarise yourself with the application and limitations of the equipment, as well as the specific potential hazards.
- ✓ Maintain the equipment in good condition
- ✓ Keep the equipment clean for best and safest performance.
- ✓ Ensure cables and probe cannot contact moving parts.
- ✗ **DO NOT** place cables and probe near high voltage items - HT leads, spark plugs or ignition coil.
- ✗ **DO NOT** allow untrained persons to operate the VS0071.
- ✗ **DO NOT** allow children to play with the VS0071.
- ✗ **DO NOT** operate the equipment when you are tired or under the influence of alcohol, drugs or intoxicating medication.
- ✓ When not in use switch off equipment and store in a safe, dry, childproof area.
- ✓ For prolonged storage, remove battery.

2. INTRODUCTION

Accurately pinpoints automotive noises and vibrations, which are converted into an electrical signal and amplified. Long pick up shaft allows use in hard to reach places. Features a volume control and supplied with headphones.

3. SPECIFICATIONS

Model no: VS0071

Battery: 9V supplied

4. OPERATION

- 4.1. Remove battery compartment door on rear and connect battery.
- 4.2. Screw probe into head of amplifier.
- 4.3. Fit headphone plug into socket in the base of the amplifier and put headset on.
- 4.4. Switch unit on by initial movement of thumb wheel. Red LED confirms that unit is switched on.
- 4.5. Further movement of the thumb wheel increases the headset volume; about half volume is the optimum setting for initial use. Increasing the volume may be necessary for faint sounds, but an increase in background noise will also occur.
- 4.6. Place the tip of the probe against the suspect part, taking care to comply with safety instructions in section 1.
- 4.7. The sound pitch and quality will vary, giving an indication of the location and severity of any potential problem.
- ☐ **WARNING!** Prolonged exposure to high volumes of noise, or sudden very loud noises can result in permanent hearing loss.

5. MAINTENANCE

- 5.1. Renew battery with a similar 9V item, refer to section 4.1.
- 5.2. Clean with a damp cloth and a mild detergent **DO NOT** use solvents.
- ✗ **DO NOT** allow unit to become wet, store in a cool, dry place.

WEEE REGULATIONS

Dispose of this product at the end of its working life in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the product is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.

BATTERY REMOVAL REFER TO SECTION 4.1. Under the Waste Batteries and Accumulators Regulations 2009, Jack Sealey Ltd are required to inform potential purchasers of products containing batteries (as defined within these regulations), that they are registered with Valpak's registered compliance scheme. Jack Sealey Ltd Batteries Producer Registration Number (BPRN) is BPRN00705.

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.

Note: It is our policy to continually improve products and as such we reserve the right to alter data, specifications and component parts without prior notice.

Important: No Liability is accepted for incorrect use of this product.

Warranty: Guarantee is 12 months from purchase date, proof of which is required for any claim.
