

APPLICATION GUIDE FOR: ENGINE

TIMING KIT

27016

This document is part of the product, keep it for the life of the product passing it on to any subsequent holder of the product. Read all information before operating product.

This guide has been compiled by Draper Tools describing the purpose for which the product has been designed, and contains necessary information to ensure its correct and safe use. By following the information contained in this guide, it will ensure both product and operator safety, together with longer life of the product itself.

All photographs and drawings in this guide are supplied by Draper Tools to help illustrate the operation of the product.

Whilst every effort has been made to ensure the accuracy of information contained in this guide, the Draper Tools policy of continuous improvement determines the right to make modifications without prior warning.

3. GUARANTEE

3.1 GUARANTEE

Draper tools have been carefully tested and inspected before shipment and are guaranteed to be free from defective materials and workmanship.

Should the tool develop a fault, please return the complete tool to your nearest distributor or contact:

Draper Tools Limited, Chandler's Ford, Eastleigh, Hampshire, SO53 1YF. England.

Telephone Sales Desk: (023) 8049 4333 or:

Product Helpline (023) 8049 4344.

A proof of purchase must be provided.

If upon inspection it is found that the fault occurring is due to defective materials or workmanship, repairs will be carried out free of charge. This guarantee period covering parts/labour is 12 months from the date of purchase except where tools are hired out when the guarantee period is 90 days from the date of purchase. This guarantee does not apply to normal wear and tear, nor does it cover any damage caused by misuse, careless or unsafe handling, alterations, accidents, or repairs attempted or made by any personnel other than the authorised Draper warranty repair agent.

Note: If the tool is found not to be within the terms of warranty, repairs and carriage charges will be quoted and made accordingly.

This guarantee applies in lieu of any other guarantee expressed or implied and variations of its terms are not authorised.

Your Draper guarantee is not effective unless you can produce upon request a dated receipt or invoice to verify your proof of purchase within the guarantee period.

Please note that this guarantee is an additional benefit and does not affect your statutory rights.

Draper Tools Limited.

4. GENERAL PRODUCT INFORMATION

This product is designed to be used correctly and with care for the purpose for which it is intended. No liability is accepted by Draper Tools Limited for incorrect use or application of any of our products, and Draper Tools Limited cannot be held responsible for any damage to personnel, property or equipment when using this product. Incorrect use will also invalidate any warranty.

The applications database and any instructional information provided has been designed to offer general guidance for a particular product's use and while all attention is given to the accuracy of the data, no project should be attempted without referring first to the manufacturer's technical documentation (workshop or instruction manual) or the use of a recognised authority such as Autodata.

It is our policy to continually improve our products and thus we reserve the right to alter specifications and components without prior notice. It is the responsibility of the user to ensure the suitability of the product and information prior to use.

5. HEALTH AND SAFETY INFORMATION

GENERAL SAFETY INSTRUCTIONS

Warning: Please read all safety warnings and all details carefully. Failure to follow the warnings may result in serious injury or major component damage.

Important: Draper Tools recommends that this product should not be modified or used for any application other than that for which it was designed.

Save all warnings and instructions for future reference.

1) Personal safety

- a) Stay alert, watch what you are doing and use common sense when using this product. Do not use this product while you are tired or under the influence of drugs, alcohol or any medication. A moment of inattention while using this product may result in serious personal injury.
- b) Use personal protective equipment as necessary.
- c) Check and remove any part of the product before turning/testing the engine. A part left attached to a rotating part of the engine may result in personal injury or major component damage.
- d) Carefully clean the tool components after every use.
- f) Keep the tool components safe and tidy.
- g) Do not use this product for any purpose other than for which it is designed.

Warning! Some of the packaging materials used may be harmful to children. Do not leave any of these materials in the reach of children.

If any of the packaging is to be thrown away, make sure it is disposed of correctly; according to local regulations.

6. CONTENTS

ITEM	DESCRIPTION	OEM	STOCK No.
A	Camshaft Alignment Plate	303-1565	30562
B	Tensioner Pin 2mm	N/A	30721
C	Camshaft Alignment Plate	303-1504	30728
D	Crankshaft Position Sensor Alignment Pin	303-1521	30772
E	Crankshaft Timing Pin	303-748	30879

7. APPLICATION

The **27016** has been developed as an **engine timing kit** for the vehicles listed below. Allows the user to lock the camshaft and crankshaft on the engine allowing engine repairs to be carried out.

Used on the following Vehicles:

Ford Focus 2011 - 2017

Ford Galaxy 2010 - 2017

Ford Mondeo 2010 - 2017

Ford S-MAX 2010 - 2017

Engine Codes:

2.0cc

**R9DA, MGDA, XQDA, R9DB, R9DC, R9DD, YVDA, TNWA, TNWB,
TPWA, R9CD, R9CI, TNBA, TNBB, TPBA, R9CB, R9CF, R9CH, TNCC,
TNCD, TNCF**

8. PREPARATION

The following is for guidance only. Please refer to OEM derived data such as the vehicle manufacturer's own data or Autodata. The use of this product is purely down to the user's discretion and Draper Tools Limited cannot be held responsible for any damage caused what so ever.

9. PROCEDURE AND APPLICATION GUIDE

Depending on manufacture and model, some engine components do change. Please check with Autodata or the manufacturer's data before use.

Component 3 = Camshaft alignment plate pre 01/05/2011.

Install 1 or 3 as required after component 5 has been installed. It may be necessary to turn the camshafts a small amount, if required use an appropriate wrench on the hexagons on the cams. Note: when tightening or loosening the cam pulleys always hold the camshafts with a suitable wrench on the hexagons on the camshafts.

Component 1 = Camshaft alignment plate post 02/05/2011.

Component 5 = Crankshaft timing pin, designed to screw into the engine block. Turn the crankshaft to just before TDC, fit component 5 as shown then turn the crankshaft till it contacts 5. As shown.

Component 4 = Crankshaft Position Sensor Alignment Tool

used to align the crankshaft position sensor when refitting. The crankshaft sensor is mounted on a slotted bracket that allows the sensor position to be adjusted. Component 4 slides onto the sensor and on to the 20th tooth from the gap in the teeth on the front pulley. In this way it both aligns the sensor with the correct tooth and sets the required distance from the tooth.

Component 2 = Tensioner Pin, used to lock the cam chain tensioner in its retracted position as shown.

Please note images are for guidance only and subject to change.
