

Norman is a real person and is our expert head of Quality Assurance. Norman appears here to bring to your attention features, technical or quality issues.

More importantly the reasons why, on occasions, it's worth paying a little more for a product that may look similar to a cheaper alternative but is much better.

Norman Says

"Draper Expert HI-TORQ"™ sockets have 6 or 12 corners with special radius design giving added torque. It also extends the life of the tool and the fastener. These sockets have a hole for positive ball retention in accordance with DIN 3120 Specification.

Standard Bi-hexagon

"Draper Expert HI-TORQ"™

- In accordance with DIN 3120 specification.
- Gives added torque.
- Extends life of socket and fastener by reducing the probability of *rounding off.
